British Emigration To Australia:

British Emigration to Australia R.T. Appleyard, 1964-12-15 Each year nearly 30 000 Britons emigrate to Australia under the Assisted Passages Scheme In return for near free transport they are required only to stay a minimum of two years in Australia Are these persons the ne er do wells of British society the unskilled misfits who have not been able to succeed in Britain Do they base their decisions to emigrate on reliable information and study economic opportunities in other overseas countries before choosing Australia To what extent do relatives and friends in Australia and the fact that it is a British country influence their decisions Why do they leave their homeland inequality of opportunity a hostile class structure the climate What do they know about the country many of them will never leave and what do they hope to achieve by going there In 1959 Dr Appleyard and a team of interviewers set out to find the answers to these questions They conducted long interviews with nine hundred British families and single persons just before they sailed for Australia This book contains the results of the interviews set in the background of post war emigration to Australia demographic and economic conditions in each country government policies which have been formulated to meet these conditions and actual differences in wage social services and the ownership of houses and consumer durables between the United Kingdom and Australia **British**

Emigration, 1603-1914 A. Murdoch, 2004-10-15 The idea of Britain has been understood largely in terms of sectarian conflict and state formation whereas emigration has most often been explored in terms of economic and social history This book explores the relationship between two subjects normally studied in isolation and includes emigration from Ireland as a social phenomenon which cannot be understood in isolation from modern British History as well as the impact of British emigration on the ethos and identity of the British Empire at its zenith at the turn of the Nineteenth and Twentieth centuries

The Australian People James Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century the island continent is home to people from all over the globe Each new wave of settlers has had a profound impact on Australian society and culture The Australian People documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people It is one of the largest reference works of its kind with approximately 250 expert contributors and almost one million words Illustrated in colour and black and white the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation *The Ten Pound Immigrants* Reginald Thomas Appleyard, 1988 A description of the phenomenon of the voluntary migration scheme between Britain and Australia known as the Ten Pound Passage with stories of people who begun their new lives in Australia under the scheme Ten Pound Poms A. James Hammerton, Alistair Thomson, 2005-08-06 More than a million Britons emigrated to Australia between the 1940s and 1970s They were the famous ten pound Poms and this is their story

Illuminated by the fascinating testimony of migrant life histories this is the first substantial history of their experience and fills a gaping hole in the literature of emigration The authors both leading figures in the fields of oral history and migration studies draw upon a rich life history archive of letters diaries personal photographs and hundreds of oral history interviews with former migrants including those who settled in Australia and those who returned to Britain Encyclopedia of Diasporas Melvin Ember,Carol R. Ember,Ian Skoggard,2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world s cultures and provides an overview of important topics in the world s diasporas The encyclopedia consists of two volumes covering three main sections Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies **Australian Immigration** ,1966 Vols for 1970 include a bibliography of New Zealand immigration **National Union Gleanings** ,1930 **History of England and the British Commonwealth** Laurence Marcellus Larson,1924 British and Foreign Trade and Industry Great Britain. Board of Trade,1904 House documents ,1892 **Monthly Record of Migration** International Labour Office,1926 **America Conquers Britain** Ludwell Denny,1930 **Reports on Legislation Concerning the Movement of Labour and Migration in General** International Labour Office,League of Nations,1926 **British and Foreign Trade and Industry (second Series)** Great Britain.
