British At Table 1940 1980:

The British at table 1940-1980, 1933 The British at Table, 1940-1980 Christopher P. Driver, 1983 Christopher Driver editor of The good food guide from 1969 to 1982 brings a fund of knowledge and a caustic wit to this account of the British as shoppers cultivators cooks and consumers In the forty years covered by this book there have been more drastic changes in our diet than in any similar period since the Norman Conquest changes brought about by among other things the disappearance of domestic servants foreign restaurateurs and the industrialisation of food production **Having it So Good** Peter Hennessy, 2007-05-03 Winner of the Orwell Prize for Political Writing Peter Hennessy's *Having it So Good* Britain in the Fifties captures Britain in an extraordinary decade emerging from the shadow of war into growing affluence The 1950s was the decade in which Roger Bannister ran the four minute mile Bill Haley released *Rock Around the Clock* rationing ended and Britain embarked on the traumatic disastrous Suez War In this highly enjoyable original book Peter Hennessy takes his readers into front rooms classrooms cabinet rooms and the new high street coffee bars of Britain to recapture as no previous history has the feel the flavour and the politics of this extraordinary time of change Utterly engaging a treat It breathes exhilaration Libby Purves *The Times* If the Gods gossip this is how it would sound Philip Ziegler *Spectator Books of the Year* A particular treat fine wise and meticulously researched Andrew Marr *Stands clear of the field as our best narrative history of this decisive decade* Peter Clarke *Sunday Times* A compelling narrative Hennessy's love of the flesh and blood of politics breathes on every page Tim Gardam *Observer* The late Ben Pimlott once described Hennessy as something of a national institution You can forget the first two of those five words *Guardian* **Austerity in Britain** Ina Zweiniger-Bargielowska, 2000-05-04 *Austerity in Britain* is the first book to explore the entire episode of rationing austerity and fair shares from 1939 until 1955 These policies were central to the British war effort and to post war reconstruction The book analyses the connections between government policy consumption gender and party politics during and after the Second World War The economic background to austerity the policy's administration and changes in consumption standards are examined Rationing resulted in at times extensive black markets and popular attitudes to the policy ranged from wartime acquiescence to post war discontent *Austerity in Britain* qualifies the myth of common sacrifice on the home front and highlights the limitations of the fair shares policy which failed to achieve genuine equality between classes or between men and women The continuation of rationing and austerity policies after 1945 was central to party politics Disaffection particularly among women undermined Labour's popularity while the Conservatives critique of austerity was instrumental to the party's victories at the general elections of 1951 and 1955 **A Thirst for Empire** Erika Rappaport, 2019-03-05 Tea has been one of the most popular commodities in the world Over centuries profits from its growth and sales funded wars and fueled colonization and its cultivation brought about massive changes in land use labor systems market practices and social hierarchies the effects of which are with us even today *A Thirst for Empire* takes a vast and in depth historical look at how

men and women through the tea industry in Europe Asia North America and Africa transformed global tastes and habits and in the process created our modern consumer society As Erika Rappaport shows between the seventeenth and twentieth centuries the boundaries of the tea industry and the British Empire overlapped but were never identical and she highlights the economic political and cultural forces that enabled the British Empire to dominate but never entirely control the worldwide production trade and consumption of tea Rappaport delves into how Europeans adopted appropriated and altered Chinese tea culture to build a widespread demand for tea in Britain and other global markets and a plantation based economy in South Asia and Africa Tea was among the earliest colonial industries in which merchants planters promoters and retailers used imperial resources to pay for global advertising and political lobbying The commercial model that tea inspired still exists and is vital for understanding how politics and publicity influence the international economy Jacket
