## **British Columbia Historical Readings By Ward:**

**Workers, Capital, and the State in British Columbia** Rennie Warburton, David Coburn, 2011-11-01 This collection of essays offers a comprehensive examination of the working class experience in British Columbia and contains essential background knowledge for an understanding of contemporary relations between government labour and employees It treats workers relationship to the province s resource base the economic role of the state the structure of capitalism the labour market and the influence of ethnicity and race on class relations Using different analytical categories and based on primary research the individual studies provide new assessments of the development of capitalist relations of production the way new economic developments changed old and traditional cultures the connection between the demand for labour and the immigration policy the impact of technology on work relations and the various responses of labour to the policies of the state and capital groupings Articles focusing on episodes from the 1870s to the present deal with major staple industries such as the early fur trade fishing mining and forestry and with the struggle of labourers against their employers in communities such as New Westminster and Fraser Mills and in specific sectors such as telecommunications and education Many of the analyses show that ethnicity acts both as a focus of integration and resistance against external forces in the larger society and as a point of division and antagonism internal to the working class The activities of the working class and its relationships to other parts of society are of primary importance in explaining social and economic change in the province and in the country **Workers Capital and the State in British Columbia** will be of interest to students of class labour and community relations

**When Coal Was King** John Hinde, 2011-11-01 The town of Ladysmith was one of the most important coal mining communities on Vancouver Island during the early twentieth century The Ladysmith miners had a reputation for radicalism and militancy and engaged in bitter struggles for union recognition and economic justice most notably the Great Strike of 1912-14 This strike one of the longest and most violent labour disputes in Canadian history marked a watershed in the history of the town and the coal industry This book explains the origins of the 1912-14 strike by examining the development of the coal industry on Vancouver Island the founding of Ladysmith the experience of work and safety in the mines the process of political and economic mobilization and how these factors contributed to the development of identity and community While the Vancouver Island coal industry and the strike have been the focus of a number of popular histories this book goes beyond to emphasize the importance of class ethnicity gender and community in creating the conditions for the emergence and mobilization of the working class population Informed by current academic debates on the matter and within the discipline this readable history takes into account extensive archival research and will appeal to historians and others interested in the history of Vancouver Island
