Representations of British Emigration, Colonisation and Settlement Robert D. Grant, 2005-11-08 This volume explores the complex relationships between early Nineteenth Century representations of emigration colonization and settlement and the social economic and cultural conditions within which they were produced It stresses the role of writers illustrators and artists in making colonial settler landscapes within the metropolitan imaginary paying particularly close attention to the complex interdependencies between metropolis and colony which have too often been reduced to simplistic binaries of centre and periphery metropolitan core and colonial outpost Focusing on material dealing with Canada the Cape Australia and New Zealand its interdisciplinarity and global reach consequently adds considerably to the field of colonial studies

1835 James Boyce, 2011 In 1835 an illegal squatter camp was established on the banks of the Yarra River In defiance of authorities in London and Sydney Tasmanian speculators began sending men and sheep across Bass Strait and so changed the shape of Australian history Before the founding of Melbourne British settlement on the mainland amounted to a few pinpoints on a map Ten years later it had become a sea of red In 1835 James Boyce brings this pivotal moment to life He traces the power plays in Hobart Sydney and London the key personalities of Melbourne s early days and the haunting questions raised by what happened when the land was opened up He conjures up the Australian frontier its complexity its rawness and the way its legacy is still with us today

Frontier Fictions Rebecca Weaver-Hightower, 2018-11-28 This book compares the nineteenth century settler literatures of Australia Canada South Africa and the United States in order to examine how they enable readers to manage guilt accompanying European settlement Reading canonical texts such as Last of the Mohicans and Backwoods of Canada against underanalyzed texts such as Adventures in Canada and George Linton or

the First Years of a British Colony it demonstrates how tropes like the settler hero and his indigenous servant the animal hunt the indigenous attack and the lost child cross national boundaries Settlers similarly responded to the stressors of taking another's land through the stories they told about themselves which functioned to defend against uncomfortable feelings of guilt and ambivalence by creating new versions of reality This book traces parallels in 20th and 21st century texts to ultimately argue that contemporary settlers continue to fight similar psychological and cultural battles since settlement is never complete
