### **British Non Elite Mps 1715 1820:**

*British 'non-elite' MPs, 1715-1820* Ian R. Christie,1995 A significant degree of social mobility was an important factor in ensuring social and political stability in 18th century Britain This detailed analysis examines how far the House of Commons reflected and was itself affected by such mobility

*British 'non-elite' MPs, 1715-1820* Ian R. Christie,1995 A significant degree of social mobility was an important factor in ensuring social and political stability in 18th century Britain This detailed analysis examines how far the House of Commons reflected and was itself affected by such mobility

**The Gentleman's House in the British Atlantic World 1680-1780** S. Hague,2015-06-23 The Gentleman s House analyses the architecture decoration and furnishings of small classical houses in the eighteenth century By examining nearly two hundred houses it offers a new interpretation of social mobility in the British Atlantic World characterized by incremental social change

**Corruption, Party, and Government in Britain, 1702-1713** Aaron Graham,2015-05-28 Corruption Party and Government in Britain 1702 1713 offers an innovative and original reinterpretation of state formation in eighteenth century Britain reconceptualising it as a political and fundamentally partisan process Focussing on the supply of funds to the army during the War of the Spanish Succession 1702 13 it demonstrates that public officials faced multiple incompatible demands but that political partisanship helped to prioritise them and to hammer out settlements that embodied a version of the national interest These decisions were then transmitted to agents in overseas through a mixture of personal incentives and partisan loyalties which built trust and turned these informal networks into instruments of public policy However the process of building trust and supplying funds laid officials and agents open to accusations of embezzlement fraud and financial misappropriation In particular although successive financial officials ran entrepreneurial private financial ventures that enabled the army overseas to avoid dangerous financial shortfalls they found it necessary to cover the costs and risks by receiving illegal gratifications from the regiments Reconstructing these transactions in detail this book demonstrates that these corrupt payments advanced the public service and thus that corruption was as much a dispute over ends as means Ultimately this volume demonstrates that state formation in eighteenth century Britain was a contested process of interest aggregation in which common partisan aims helped to negotiate compromises between various irreconcilable public priorities and private interests within the frameworks provided by formal institutions and then collaboratively imposed through overlapping and intersecting networks of formal and informal agents

The Early Roxburghe Club 18121835 Shayne Husbands,2017-08-21 The Roxburghe Club founded in 1812 has an unbroken publishing history from 1814 to the present day The Early Roxburghe Club 1812 1835 offers a new narrative for the formative years of the Roxburghe Club for the bibliomania of the Romantic period and for early nineteenth century antiquarian culture and its relationship to the emergent popularity and status of English vernacular literature By examining in detail the make up and membership of the club including its social and political affinities this revised history of the first two decades of its existence offers both an

alternative view of the early club and its significant contribution to the move between antiquarian and scholarly areas of influence in the study of English literature *The Forgotten Majority* Margrit Schulte Beerbühl, 2014-10-01 The forgotten majority of German merchants in London between the end of the Hanseatic League and the end of the Napoleonic Wars became the largest mercantile Christian immigrant group in the eighteenth century Using previously neglected and little used evidence this book assesses the causes of their migration the establishment of their businesses in the capital and the global reach of the enterprises As the acquisition of British nationality was the admission ticket to Britain's commercial empire it investigates the commercial function of British naturalization policy in the early modern period while also considering the risks of failure and chance for a new beginning in a foreign environment As more German merchants integrated into British commercial society they contributed to London becoming the leading place of exchange between the European continent Russia and the New World

**The Politics of Trade** Perry Gauci, 2001-04-05 This book examines the political and social impact of the English overseas merchant during this key era of state development Historians have increasingly recognized the significance of this period as one of commercial and political transition but relatively little thought has been given to the perspective of the overseas traders whose activities transended these dynamic arenas Analysis of the role of merchants in public life highlights their important contribution to England's rise as a commercial power of the first rank and illuminates the fundamental political changes of the time Case studies of London Liverpool and York reveal the intricate workings of mercantile politics while studies of the press and Parliament illustrate the increasing prominence of the trader on the national stage The author's pioneering approach shows how crucial the political accommodation which the merchant class secured with the landed gentry was to the country's success in the eighteenth century

**George Canning and Liberal Toryism, 1801-1827** Stephen M. Lee, 2008 A survey of the political career of George Canning showing how he contributed to a radical change in British party politics Winner of the Royal Historical Society's 2009 Whitfield Book Prize George Canning one of the most charismatic and divisive figures in British political history was at the centre of Hanoverian politics for nearly four decades This study looks at how Canning emerged in the years between 1801 and his death in 1827 as the leading exponent of a distinctive form of Liberal Toryism in parliament and in the country at large In contrast to the majority of works on Canning and his impact of British foreign policy it concentrates on Canning's domestic career his emergence from the shadow of Pitt after 1801 his disillusionment with old fashioned factionalism in the years after Pitt's death in 1806 his experiences as MP for Liverpool 1812-23 his political thought his relationships with the middle classes and his contribution to the evolution of the idea of public opinion his role in the high period of Liberal Toryism 1822-7 and finally his central part in the break up of the Tory party in 1827 in the aftermath of Lord Liverpool's incapacitating stroke His achievement is thus shown to lie as much in the realm of domestic party politics as in foreign relations and diplomacy And by looking at Canning's career over the longer term the book argues that Liberal Toryism was not simply a flourish of post war

economic liberalism but a fundamental reshaping of British party politics in the aftermath of the French revolution Guilds and Association in Europe, 900-1900 Ian Anders Gadd, Patrick Wallis, 2006 This book is made up of a collection of papers from the Revisiting the livery companies of early modern London conference held in April 2000 by the CMH exploring the history of London livery companies from a variety of perspectives Employing historical and interdisciplinary approaches it examines print culture and early histories civic myths charity the family artisans mercantile elites and the control and regulation of guild and economy Contributions by Ian W Archer Matthew Davies John Forbes Ian Anders Gadd Perry Gauci Ronald F Homer Mark Jenner Derek Keene Giorgio Riello James Robertson Patrick Wallis and Joseph P Ward **Public Speech and the Culture of Public Life in the Age of Gladstone** Joseph Meisel, 1999 **Parliamentary History**, 1999 **Royal Historical Society Annual Bibliography of British and Irish History** Austin Gee, 1996 The Royal Historical Society's Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year The volume covers all periods of British and Irish history from Roman Britain to the late twentieth century and also includes a section on imperial and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians **The British National Bibliography** Arthur James Wells, 1998 **The Practice of Reform in Health, Medicine, and Science, 1500-2000** Charles Webster, Margaret Pelling, Scott Mandelbrote, 2005 Histories of medicine and science are histories of political and social change as well as accounts of the transformation of particular disciplines over time This volume considers the effect that demands for social and political reform have had on the theory and above all the practice of medicine and science and on the promotion of human health from the Renaissance and Enlightenment up to the present **Current Contents, April 12, 1999**, 1999 **Historical Abstracts**, 2000 International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences, 1996 *Sociological Abstracts* Leo P.
