**The British Police** Jenifer M. Hart, 2023-03-31 Originally published in 1951 *The British Police* describes the different types of police force the powers and functions of local police authorities the ways in which control from the centre is exercised and the effect of the Local Government Boundary Commission's proposals on police areas at the time Special emphasis is placed on what happens in practice and not only in theory and on developments during and after the second world war Chapters are included on amongst other things the special position of the Metropolitan Police Force emphasizing the independence of the Yard from the Home Secretary's control on recruitment training promotion and the police college pay and conditions of service and policewomen At the time of first publication the work was intended to be of use to university students in the Social Sciences who had previously had no up to date book to reply on it would also have interested the general reader by attempting to answer such questions as to whether the local basis of the British police service was as was so often claimed the key to the good relations of the police with the public and one of the great safeguards of personal liberty in Britain Today it can be read and enjoyed in its historical context *The British Police and Home Food Production in the Great War* Mary Fraser, 2024-06-25 This book explores the role of the British Police in home food production during the First World War a critical time when decreasing food imports threatened population starvation around the country Drawing from the police's most popular weekly journal the book provides insights into policemen's lives the political context in which they worked and the pressures on police forces throughout Britain during the Great War Unlike neighbouring countries in Europe Britain avoided major food riots due to government control of farming from December 1916 which prioritised agriculture to feed the nation The police force released over 400 policemen in England and Scotland to serve as ploughmen from March 1917 for around two months Almost a third of policemen throughout Britain had previous agricultural backgrounds and so were welcomed by farmers as experienced workers This book illustrates not only why the food crisis arose and the state of British farming during the war but it also sheds light on how individual police forces were approached and encouraged to release their policemen at a time when police forces themselves were critically short of staff due to recruitment into the war The author discusses how the release of policemen into agriculture as first responders benefitted the police and provided surveillance over home food production in the national interest **FBI Law Enforcement Bulletin**, 2000 **Exporting the UK Policing Brand 1989-2021** Georgina Sinclair, 2024 *The English Police* Clive Emsley, 2014-09-19 A comprehensive history of policing from the eighteenth century onwards which draws on largely unused police archives Clive Emsley addresses all the major issues of debate he explores the impact of legislation and policy at both national and local levels and considers the claim that the English police were non political and free from political control In the final section he looks at the changing experience of police life Established as a standard introduction to the subject on its first appearance the Second Edition has been substantially revised and is now published under the Longman imprint for the

**Policing Empires** Julian Go, 2024 The police response to protests erupting on America's streets in recent years has made the militarization of policing painfully transparent Yet properly demilitarizing the police requires a deeper understanding of its historical development causes and social logics Policing Empires offers a postcolonial historical sociology of police militarization in Britain and the United States to aid that effort Julian Go tracks when why and how British and US police departments have adopted military tactics tools and technologies for domestic use Go reveals that police militarization has occurred since the very founding of modern policing in the nineteenth century into the present and that it is an effect of the imperial boomerang Policing Empires thereby unlocks the dirty secret of police militarization Police have brought imperial practices home to militarize themselves in response to perceived racialized threats from minority and immigrant populations
