Art as Metaphor Aron Mazel, George Nash, Clive Waddington, 2007-12-31 Enigmatic esoteric and fascinating the rock art of the British Isles has for a long time been a well kept secret This volume brings together a carefully selected collection of papers reporting on recent discoveries and regional surveys covering British prehistoric rock art from over 10 000 years ago

British Prehistoric Rock Art Stan Beckensall, 1999 This text offers the reader an insight into rock art allowing people to discover a whole new way of looking at landscape and the countryside Such discoveries can bring joy and companionship in the search something that has always been a vital part of archaeology **Circles in Stone** Stan Beckensall, 2006 This comprehensive work takes a broad view of what rock art entails covering the history of rock art research and the discovery of many new sites The author illustrates the different symbols and motifs that are found throughout the British Isles and shows where they occur in landscapes and monuments It is a book that captures the excitement of discovery and examines the various theories about the origin use and meaning of rock art Stan Beckensall also explains the problems of accurate conservation recording and display

Prehistoric Rock Art in Britain Stan Beckensall, 2009-10-15 In this latest book the prolific Stan Beckensall returns to his principal specialism Britains prehistoric rock art [Abstractions Based on Circles: Papers on prehistoric rock art presented to Stan Beckensall on his 90th birthday](#) Paul Frodsham, Kate Sharpe, 2022-09-22 Stan Beckensall is renowned for his work done on an entirely amateur basis discovering recording and interpreting Atlantic rock art in his home county of Northumberland and beyond Presented on his 90th birthday this diverse and stimulating collection of papers celebrates his crucial contribution to rock art studies and looks to the future [Prehistoric Rock Art of the West Riding](#) K. J. S. Boughey, E. A. Vickerman, 2003

Open-Air Rock-Art Conservation and Management Timothy Darvill, Antonio Batarda Fernandes, 2014-06-20 While much has been achieved in understanding and managing weather effects and erosion phenomena affecting ancient imagery within the relatively protected environments of caves and rock shelters the same cannot be said of rock art panels situated in the open air Despite the fact that the number of known sites has risen dramatically in recent decades there are few examples in which the weathering and erosion dynamics are under investigation with a view to developing proposals to mitigate the impact of natural and cultural processes Most of the work being done in different parts of the world appears to be ad hoc with minimal communication on such matters between teams and with the wider archaeological community This richly illustrated book evaluates rock art conservation in an holistic way bringing together researchers from across the world to share experiences of work in progress or recently completed The chapters focus on a series of key themes documentation projects and resource assessments the identification and impact assessment of weathering erosion processes at work in open air rock art sites the practicalities of potential or implemented conservation interventions experimentation and monitoring programs and general management issues connected with public presentation and the demands of ongoing research investigations Consideration is given to the conservation of open air rock

art imagery from many periods and cultural traditions across the Old and New Worlds This timely volume will be of interest to conservators managers and researchers dealing with aesthetic and ethical issues as well as technical and practical matters regarding the conservation of open air rock art sites *Prehistoric Rock Art in Northumberland* Stan Beckensall,2001

Northumberland is the most prolific varied and important area of rock art in Britain This book which includes every known site relates the art to its landscape and monumental setting This work follows naturally from the author s general work on rock art British Prehistoric Rock Art and his recent widely acclaimed book Northumberland Power of Place *Pagan Britain* Ronald Hutton,2014-05-13

Britain s pagan past with its mysterious monuments atmospheric sites enigmatic artifacts bloodthirsty legends and cryptic inscriptions is both enthralling and perplexing to a resident of the twenty first century In this ambitious and thoroughly up to date book Ronald Hutton reveals the long development rapid suppression and enduring cultural significance of paganism from the Paleolithic Era to the coming of Christianity He draws on an array of recently discovered evidence and shows how new findings have radically transformed understandings of belief and ritual in Britain before the arrival of organized religion Setting forth a chronological narrative Hutton along the way makes side visits to explore specific locations of ancient pagan activity He includes the well known sacred sites Stonehenge Avebury Seahenge Maiden Castle Anglesey as well as more obscure locations across the mainland and coastal islands In tireless pursuit of the elusive why of pagan behavior Hutton astonishes with the breadth of his understanding of Britain s deep past and inspires with the originality of his insights *The Neolithic of the Irish Sea* Chris Fowler,2015-03-31

This collection of 24 papers aims to reconsider the nature and significance of the Irish Sea as an area of cultural interaction during the Neolithic period The traditional character of work across this region has emphasised the existence of prehistoric contact with sea routes criss crossing between Ireland the Isle of Man Anglesey and the British mainland A parallel course of investigation however has demonstrated that the British and Irish Neolithics were in many ways different with distinct indigenous patterns of activity and social practices The recent emphasis on regional studies has further produced evidence for parallel yet different processes of cultural change taking place throughout the British Isles as a whole This volume brings together some of these regional perspectives and compares them across the Irish Sea area The authors consider new ways to explain regional patterning in the use of material objects and relate them to past practices and social strategies Were there practices that were shared across the Irish Sea area linking different styles of monuments and material culture or were the media intrinsic to the message The volume is based on papers presented at a conference held at the University of Manchester in 2002

Carving a Future for British Rock Art Tertia Barnett,Kate Sharpe,2010 **Theoretical Perspectives in Rock Art Research** Knut Arne Helseth,2001 *New Light on the Neolithic of Northern England* Gill Hey,Paul Frodsham,2021-01-13 These papers highlight recent archaeological work in Northern England in the commercial academic and community archaeology sectors which have fundamentally changed our perspective on the Neolithic of the area Much of this was new

work and much is still not published has been overlooked in the national discourse The papers cover a wide geographical area from Lancashire north into the Scottish Lowlands recognising the irrelevance of the England Scotland Border They also take abroad chronological sweep from the Mesolithic Neolithic transition to the introduction of Beakers into the area The key themes are the nature of transition the need for a much improved chronological framework regional variation linked to landscape character links within northern England and with distant places the implications of new dating for our understanding the axe trade the changing nature of settlement and agriculture the character early Neolithic enclosures the need to integrate rock art into wider discourse
