Its History, Organisation and Importance

By ADAM W. KIRKALDY

M.A., B.Litt. (Oxon.) F.R.S.

PROFESSOR OF FINANCE IN THE UNIVERSITY OF ABERDEEN.

The writing of this work has been a great pleasure to the author, whose interests from early boyhood have been connected with the sea and ships. Moreover in making himself familiar with the latest phases of this important industry it has been necessary to visit ships, ports and docks, and to interview, or correspond with many of the authorities.

The first part deals with the Evolution of the Ship and the second with Ownership, Management and Regulation of Shipping. The third is devoted to Trade Routes with a chapter on the Panama Canal and its commercial effects, while the concluding section gives a description of certain Ports and Docks of the United Kingdom, their development and present conditions.

The volume cannot fail to be of the utmost value to all connected with Ships and Shipping, as well as an indispensable text-book to students of Economics and Technology.
