nature of duty evasion for each category of alcohol the Department cannot tailor its approach or make best use of the additional 917 million it plans to spend on reducing all kinds of tax avoidance and evasion The Department is consulting on a range of measures to reduce alcohol duty fraud including a proposal to introduce fiscal stamps for beer but does not yet have a full understanding of the costs and benefits of these proposals The Department also does not make best use of intelligence and technology to detect and prevent alcohol duty evasion and needs to work more closely with the industry to improve its understanding of legitimate export markets and improve how it works with the UK Border Force In addition the full capability of the Excise Movement Control System EMCS which facilitates the tracking of freight across the European Union and could be used to target interventions and investigations more effectively is not used
