Bringing New Law To Ocean Waters:

Bringing New Law to Ocean Waters David D. Caron, Harry N. Scheiber, 2004-09-01 In this volume leading scholars and jurists in ocean law provide perspectives on the past record of legal change together with analyses of a wide range of institutional and legal innovation that are needed to meet current challenges The topics that are addressed here include policy process and legal innovation in marine fisheries management institutional capacity and jurisdictional conflict in ocean law adjudication regionalism and multilateralism in their various aspects the challenges posed by the sudden recent availability of technological access to underwater cultural heritage compensation for war related environmental damage and the problems associated with access to marine genetic materials Bringing new law to ocean waters the quest to adjust the legal order of the oceans to changing realities a quest that has produced both great achievements and grievous failures has constituted one of the major developments in international law in the last half century *The International Legal Regime of Areas beyond National Jurisdiction* Erik J. Molenaar, Alex G. Oude Elferink, 2010-02-08 States and entrepreneurs are becoming increasingly interested in the economic potential of ocean areas beyond the national jurisdiction of coastal States namely the high seas and the Area This has led to growing support within the international community to enhance the international legal regime for those areas among other things to protect and preserve the environment and biodiversity However the current debate in international fora indicates that States have widely different interpretations on key aspects of this regime For instance what implications do the principles contained in the United Nations Convention on the Law of the Sea have for the governance and regulation of these areas how is access to natural resources best regulated how are benefits derived from these areas to be distributed and which specific institutional frameworks should be employed in the management of areas beyond national jurisdiction This work intends to contribute to a better understanding of the international law aspects of the ongoing debate on current and future international governance and regulation of areas beyond national jurisdiction To this end four specific topics are examined principles and objectives of the legal regime institutional arrangements for the legal regime entitlements to marine living resources and compliance with international regulations *Equitable Principles of Maritime Boundary Delimitation* Thomas Cottier, 2015-04-30 Analysing the role of equity in international law the book offers a detailed case study on maritime boundary delimitation in the context of the enclosure movement in the law of the sea Law, Society, and History Robert W. Gordon, Morton J. Horwitz, 2011-03-07 This book assembles essays on legal sociology and legal history by an international group of distinguished scholars All of them have been influenced by the eminent and prolific legal historian legal sociologist and scholar of comparative law Lawrence M Friedman Not just a Festschrift of essays by colleagues and disciples this volume presents a sustained examination and application of Friedman s ideas and methods Together the essays in this volume show the powerful ripple effects of Friedman s work on American and comparative legal sociology American and comparative legal history and the general sociology of law
