BRITAIN AND HER ARMY 1509-1970 1970, *The Canadian Army & Normandy Campaign* John A. English, 2009-08-18 Honest reappraisal of the Canadian experience in Normandy Special focus on the struggle to close the Falaise Gap Relies on archival records including Bernard Montgomery's personal correspondence *Churchill's Army*

Stephen Bull, 2016-09-22 Winston Churchill Britain's iconic war time Prime Minister is inextricably linked with the victorious British Army of 1939 to 1945 Yet hindsight propaganda and the imperative of the defeat of Hitler and Imperial Japan have led to a tendency to oversimplify the image of Churchill the war leader and his Army For whilst Churchill was undeniably a towering statesman his relations with both the Army and War Office were ambiguous and altered considerably not only with the progress of the Second World War but over decades In this comprehensive book Stephen Bull examines every aspect of the British Army during the Second World War and considers in detail the strengths and weaknesses of an organisation that was tested to its limits on many fronts but made an immense contribution to the successful Allied outcome The book explores the structure of military power from the men who ran it the Generals to the detail of the regiments they commanded It looks at the uniforms the soldiers wore and the badges and insignia they bore on their uniforms The weaponry Churchill's army used is discussed in detail from small arms including rifles bayonets grenades carbines and machine guns to the massed firepower of the artillery along with the increasing sophistication of tanks and other military vehicles during the period Finally the role of auxiliary and special forces and their contribution to the campaign is considered The comprehensive text is enhanced by more than 200 contemporary photographs

The Soul of Armies Austin Long, 2016-03-01 For both the United States and United Kingdom counterinsurgency was a serious component of security policy during the Cold War and along with counterterrorism has been the greatest security challenge after September 11 2001 In *The Soul of Armies* Austin Long compares and contrasts counterinsurgency operations during the Cold War and in recent years by three organizations the US Army the US Marine Corps and the British Army Long argues that the formative experiences of these three organizations as

they professionalized in the nineteenth century has produced distinctive organizational cultures that shape operations Combining archival research on counterinsurgency campaigns in Vietnam and Kenya with the author's personal experience as a civilian advisor to the military in Iraq and Afghanistan *The Soul of Armies* demonstrates that the US Army has persistently conducted counterinsurgency operations in a very different way from either the US Marine Corps or the British Army These differences in conduct have serious consequences affecting the likelihood of success the potential for civilian casualties and collateral damage and the ability to effectively support host nation governments Long concludes counterinsurgency operations are at best only a partial explanation for success or failure *The British Army and the People's War, 1939-1945* Jeremy A. Crang, 2000-11-18 During the Second World War the British army absorbed approximately three million new recruits the majority of whom were conscripts Drawn from all occupational groups and social classes the military authorities were confronted with the task of molding these civilians in uniform into an effective fighting force This book analyzes the impact of this process of integration on the army as a social institution Exploring such aspects of the army's social organization as other rank selection officer selection officer promotion officer man relations the soldier's working life army welfare and army education it assesses the ways in which the army changed in relation to its new intake what the extent of any change that took place actually was and how different the army of 1945 was to that of 1939 *Armor*, 1971 **Comparative Defense Policy** Frank B. Horton, Anthony C. Rogerson, Edward L.
