British General Elections Since 1945:

A History of British Elections since 1689 Chris Cook, John Stevenson, 2014-06-27 A History of British Elections since 1689 represents a unique single volume authoritative reference guide to British elections and electoral systems from the Glorious Revolution to the present day The main focus is on general elections and associated by elections but Chris Cook and John Stevenson also cover national referenda European parliament elections municipal elections and elections to the Welsh and Northern Irish assemblies and the Scottish parliament The outcome and political significance of all these elections are looked at in detail but the authors also discuss broader themes and debates in British electoral history for example the evolution of the electoral system parliamentary reform women s suffrage constituency size and numbers elimination of corrupt practices and other important topics The book also follows the fortunes not only of the major political parties but of fringe movements of the extreme right and left Combining data summary and analysis with thematic overviews and chronological outlines this major new reference provides a definitive guide to the long and varied history of British elections and is essential reading for students of British political history

Elections in Britain D. Leonard, R. Mortimore, 2015-12-11 How do British elections work What about local elections and by elections How are candidates chosen What has been the impact of changes introduced by the present government How can an ordinary voter play his or her part And why do so few people vote these days Dick Leonard a political journalist and former MP and Roger Mortimore an opinion pollster cover all aspects of British elections in this updated edition of the standard work including comprehensive tables of statistics and results

Elections in Britain Today Dick Leonard, 2016-07-27 This is a lively and authoritative account by a leading political journalist and former MP of how the British electoral system works It is addressed primarily to intelligent voters but also to students of political science government and British Constitution at universities colleges and schools It answers central questions such as When are elections held Who can vote What happens on polling day And how does one become an MP It explains clearly how and why constituency boundaries have to be altered how the parties are organized how campaigns are conducted the role of the media how reliable opinion polls are and what happens at by elections This completely revised and up dated edition deals also with local elections referenda and elections to the European Parliament and describes clearly the main features of other electoral systems including the main variations of proportional representation The annexes contain a mass of electoral statistics and a thorough bibliography

The British General Election , 1987

British Politics and European Elections 2004 D. Butler, M. Westlake, 2005-04-18 A non election in terms of popular perception the 2004 European elections in the United Kingdom nevertheless provided a fascinating snapshot of the new far more fluid electoral trends that have been emerging since the end of the Thatcher era with Green Eurosceptical regional and single issue parties all jostling for electoral space with the bigger three Like its predecessors this book documents the background framework and party preparations recounts how the campaign unfolded analyses the results

and explores the consequences of the elections in both the British and the European context *British Political Facts Since 1979* D. Butler, Gareth Butler, 2006 This book is the definitive record of the who the what and the when of British political history from the election of Mrs Thatcher to the present day Political Communications Transformed John Bartle, Dylan Griffiths, 2001-03-30 Dramatic changes in society technology and culture have transformed the relationship between political parties the media and the individual voter over the last fifty years The leading researchers gathered in this volume offer a comprehensive analysis of the evolution of British political communication since 1945 They explore the competition for coverage between political parties and media organizations the ongoing rivalry between politicians and the press and the implications for the quality of British democracy **A Bibliography of British History** Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index *British General Elections Since 1945* David Butler, 1989-01-01 **British Political Facts, 1900-1994** David Butler, Gareth Butler, 1994 The seventh edition of this book covers the who the what and the when of British political theory in the 20th century The facts in this edition have been rechecked and updated to 1994 and it includes revised chapters on the economy and the public sector **The British General Election of February 1974** David Butler, Dennis Kavanagh, 1999 *The Conservatives and British Society, 1880-1990* Martin Francis, Ina Zweiniger-Bargielowska, 1996 This collection of research explores the relationship between the Conservative party and British society since 1880 by focusing on the key themes of ideology national identity gender and policy The focus of the text is not so much on the Conservative party as an institution as on the party's wider significance in British political culture It seeks to explain the Conservatives extraordinary electoral success in this period and asserts that this success was both problematic and historically contingent Part one of this study addresses the question of conservative ideology part two analyzes the role of national identity in Conservative discourse and policy part three assesses how Conservatives negotiated the gendered nature of popular politics both before and after the arrival of the equal franchise and part four examines how Conservative understanding of the relationship between state and society were translated into specific aspects of social and economic policy **British Parliamentary Election Statistics, 1918-1970** Fred W. S. Craig, 1971 The British Polity Philip Norton, 1991 The British Polity second edition features various comparisons between the styles of governmental institutions and political practices in the United States and the United Kingdom It not only explores the differences but also the similarities between the nations The completely revised second edition has also been updated to take into account the 1989 European Parliamentary elections **Royal Historical Society Annual Bibliography of British and Irish History** Austin Gee, 2001-10-18 The Royal Historical Society's Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles published

in a single calendar year It covers all periods of British and Irish history from Roman Britain to the end of the twentieth century and also includes a section on imperial and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians

The Two Majorities and the Puzzle of Modern American Politics Byron E. Shafer, 2003 Where did the Era of Divided Government come from What sustains split partisan control of the institutions of American national government year after year Why can it shift so easily from Democratic or Republican presidencies coupled with Republican or Democratic Congresses How can the vast array of issues and personalities that have surfaced in American politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time These big questions constitute the puzzle of modern American politics The old answer a majority and a minority party plus dominant and recessive public issues will not work in the Era of Divided Government Byron Shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on American politics provides a convincing new answer that has three major elements These elements in combination not divided government as a catch phrase are the real story of politics in our time The first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities The old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns The second element can be seen in the behavior of political parties and party activists whose own preferences don't match those of the general public That public remains reliably left of the active Republican Party on economic and welfare issues and reliably right of the active Democratic Party on cultural and national concerns The third crucial element is found in an institutional arrangement the distinctively American matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out In the first half of the book Shafer examines how dominant features of the Reagan first Bush Clinton and second Bush administrations reflect the interplay of these three elements Recent policy conflicts and institutional combatants in Shafer's analysis illuminate this new pattern of American politics In the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework In this light modern American politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time

British Political Facts, 1900-1960 David Butler, Jennie Freeman, 1963

Electoral Systems and Voting in the United Kingdom Chris Robinson, 2010 A key feature of the New Labour government's constitutional reform agenda has been the introduction of a number of alternative methods of voting for both existing elections and for those to new political institutions This book examines the workings of these various systems of elections looking specifically at how they operate within the United Kingdom and their direct impact on representation and governance It also considers voting behaviour in the UK with reference to the context of the electoral system being used In conclusion there is an attempt to discover the extent to which

the introduction and operation of different electoral systems has affected voter behaviour Key Features A lively and up to date integration of the theory and the practice of elections in the UK Recognises the national and regional diversity of the subject matter Reflects the needs of students studying different parts of the United Kingdom Parliamentary Papers Great Britain. Parliament. House of Commons,1878 *British Government and Politics* Douglas V. Verney,1966
