Strategy is the cornerstone of the success or failure of a company. It gives direction to corporate values, goals, mission, and culture. This paper defines the core competencies and dynamic capabilities of four of the leading financial institutions for a company. Briefly refer to Appendix A SWOT analysis, Appendix B as well as the importance of corporate governance. Furthermore, based on the information gathered, it will be discussed what key challenges Citibank and Deutsche Bank are facing, the significance of these challenges, and how they might be overcome. Finally, strategic implementations are suggested.

Critical Strategies for Social Research William K. Carroll, 2004. Edited by Canadian sociologist William K. Carroll, this thought-provoking volume is designed for research methods courses in sociology and social sciences. *Critical Strategies for Social Research* explores ways in which several key research strategies bring an emancipatory dimension to social analysis. The new approaches recognize that social analysis is a form of knowledge production that takes place in a human-constructed world marked by injustice and persistent inequality. Carroll considers five influential and productive strategies of inquiry: Dialectical Social Analysis, Institutional Ethnography, Participatory Action Research, Critical Discourse Analysis, and Social Inquiry as Communicative Reason. *Strategies, 2002*. [Strategies, Techniques & Approaches to Thinking](#) Sandra Luz Martinez de Castillo, 2002-07. This easy-to-use workbook presents realistic case studies and patient care scenarios encountered in the clinical setting to facilitate the development of critical thinking skills. Using a straightforward, readable style, it builds a fundamental knowledge base and reinforces nursing concepts and principles. Guiding readers through the application, analysis, and synthesis of knowledge in clinical situations, it also integrates learned knowledge with the nursing process tradition and applies it to critical thinking. The step-by-step organization throughout continually reinforces critical thinking and analysis. Section One reinforces fundamental concepts and principles pertinent to nursing practice and demonstrates how learned knowledge is applied to patient care situations. Section Two helps readers prioritize and make sound clinical decisions. The nursing process is included in this section. Section Three presents clinical situations using an intershift report format. Relevant and irrelevant information is provided to encourage analyzing and interpreting data based on the presenting situation. Includes flow charts to assist in gathering further data. Answers for selected case studies are provided in Section Four. Ten new case studies have been added to further emphasize leadership and management, including key areas such as delegation. Test questions are included with selected case studies to test content knowledge and to prepare students for examinations.
