*Constructing a Cross-Border Region in the Pacific Northwest* Pierre-Alexandre Beylier, 2023-11-03 For residents living at national borders the divisions between countries are rarely black and white and often everyday interactions contribute to the creation of a cross border region This book examines this phenomenon in Cascadia which runs along the Canada US border in the Pacific Northwest Placing people at the heart of the analysis the book considers the everyday interactions and links which bind residents together and help to define Cascadia as a cross border region The book also assesses the impact that increased border security in the wake of 9 11 has had on border residents Following a bottom up approach rather than a top down approach the book examines how border security impacts the residents mobility their representations of the border and potentially the existence of a cross border identity Drawing on extensive original qualitative and quantitative data this book will be of interest to researchers across border studies geography geopolitics and cultural studies as well as to policy makers and other stakeholders with an interest in cross border cooperation

*Cross-Border Management* Rongxing Guo, 2015-01-05 This book presents a new approach to management in an increasingly interactive world In this context the use of the word new has two meanings The first relates to a new definition of borders which are natural institutional functional or mixed the second concerns the fact that the book applies and where necessary develops analytical tools methods and models that are different from those used in other similar books The objectives of this book are to clarify whether existing management theories and methods can be effectively applied in an entity which can be defined as a sovereign country a region a community a culture or a firm as the latter increasingly interacts with the rest of the world to develop qualitative and quantitative methods to help leaders make optimal decisions for their entity and at the same time to maximize the positive or minimize the negative effects of those decisions on the rest of the world and to design workable cross border cooperation plans and conflict management schemes that allow policy makers to better cope with the challenges and problems posed by our increasingly interactive world

Hurtgen Forest the Battle of the Bulge the Ruhr Pocket and deep into Germany By war s end it had developed successful combined arms regimental combat teams and made advances in night operations Wheeler describes the First Division s critical role in postwar Germany and as the only combat division in Europe during the early Cold War After returning to the United States at Fort Riley Kansas the division fought valiantly in Vietnam for five trying years successfully protecting Saigon from major infiltration along Highway 13 while pioneering air mobile operations It led the liberation of Kuwait in Desert Storm and kept an uneasy peace in Bosnia and Kosovo Along the way Wheeler illuminates the division s organizational evolution its consistently remarkable commanders and leaders and its equally remarkable soldiers Meticulously detailed and engagingly written *The Big Red One* nimbly combines historical narrative with astute analysis of the unit s successes and failures so that its story reflects the larger chronicle of America s military experience over the past century **The Far-Eastern Review** ,1920 **Crossing Borders** Hilda Rømer Christensen,Beatrice Halsaa,Aino Saarinen,2004 This anthology indicates the many and multi layered ways in which women s movements have developed in the past and the challenges that face women s movements today Covering a broad range of issues the book strives for re narration and re location of one of the major social movements of the 20th century and for fresh analysis of the latest trends The framework for the texts has been set by recent structural ideological and cultural changes towards globalization including the end of the Cold War bipolarization immigration and multiculturalism The changes have produced new fields of cooperation and conflicts within the women s movements and generated new questions that are dealt with in four main sections Choice Outstanding Academic Title 2005 Cross-Border E-Commerce Marketing and Management Hoque, Md.
