Automation Channel Software Alternatives With Free Tools With Low Budget:

How to Manage Finance @ Startup Dr Karminder Ghuman and CA Sahil Makkar, 2023-12-20 It's vital for startup founders to understand how to wisely deploy their funds and undertake financial decision making. This book covers all aspects like budgeting, financial planning, costing, pricing, capital structure, capital budgeting, investment decision making, accounting, financial management, taxation, corporate governance, ethical practices, and usage of technology in finance and can guide startup founders with a tech or non-finance background regarding how to manage finance at their startups. Managing the finances is a vital skill that startup founders must develop because at the initial stages there is a lack of full-time competent finance professionals on their payrolls. The key aspects discussed in this book would sensitize and educate startup founders to understand the importance of various financial aspects and be in a much better position to engage with financial experts regarding these important issues. Thus, it would reduce the total dependence of startup founders on their Chartered accountants and finance domain professionals.
