Brandenberg,Roland Hess,Kamil Osmianski,Georg Steinbacher,2022-12-21 Culture is the key for lasting success As Peter Drucker already knew Culture eats strategy for breakfast We can have the best vision the best strategy or the best processes the world has ever imagined as long as our culture does not support that our activities will lead nowhere This is a nice explanation for why approximately 70% of big corporate transformations fail to produce the intended results The necessity of sustainably improving the corporate culture becomes also evident in diverse empirical studies According to e g Gallup the culture in most western organizations is far from being open empowering honest and motivating As a result in fact the average employee spends his time at work being rather demotivated and disengaged What a waste of precious lifetime and resources As a result working on and improving the corporate culture should be at the very heart of every corporate transformation But how to do so Change can be fun People CAN enjoy change Certain elements can make the change a success Be inspired by our practice and evidence based thinking of how change works to make it work for you The LxAxR I formula depicts the ocean of change in a simple and comprehensible way To generate desired Impact you need to get the Leadership Approach and Resources right at the same time This approach is very different from any other change approach we know and builds on more than 100 transformations which we have been running And it works Follow us on exploring the formula and make it work for you **Amendments to the Navigation Laws** United States,1907 *The Manager's Bookshelf* Jon Lepley Pierce,John W.
