**Burma Strike** James N. Pruitt,1990      **Burma's Constitution** Maung Maung,2012-12-06 This is an attempt to study and interpret the Constitution of the Union of Burma which has now passed its tenth year A constitution read outside the context of constitutional history is incomplete and I have therefore tried to trace the developments which culminated in the constitution then study its important features with reference where necessary to the background in which they took shape and form and while studying how the constitution has been working touch lightly on contemporary events and trends It is a vast canvas I am trying to cover and what I am able to draw on it would inevitably be sketchy But I do not write as a historian whose focus is on detail in a narrow area Rather having dug and gathered the facts I trace their sweep in history The details I willingly and happily leave to the historians hoping only that my study will be of some use to them if only as a target for their learned criticism Some of the events and people I describe are still too near and a clear perspective is therefore difficult What is nearest appears biggest and I often find it tempting to see and accept that Burma s history as a new independent nation began with the students strike of 1936 or the resistance movement during the Second World War
