dropshipping you only purchase a product once a customer has placed an order and made the payment An initial inventory investment is not needed Easy to start an ecommerce business becomes much easier to run when you do not handle physical products You will not worry about a warehouse packing and shipping tracking inventory handling returns and much more Low overhead since you will not be dealing with a warehouse or purchasing inventory expect low overhead expenses A lot of people run a dropshipping businesses from their home office with their laptop and only use about 100 per month The expenses may increase as your business grows but they will still be low Flexible location if you have an internet connection you can manage your dropshipping business from anywhere
