Police work from its very beginning was considered a male domain far too dangerous and rough for a respectable woman to even contemplate doing much less take on as a profession A policewoman worked outside the home walking dangerous city streets late at night to confront burglars drunks scam artists and prostitutes To solve crimes she observed collected evidence and used reason and logic traits typically associated with men And most controversially of all she had a purpose separate from her husband children and home Women who donned the badge faced harassment and discrimination It would take more than seventy years for women to enter the force as full fledged officers Yet within the covers of popular fiction women not only wrote mysteries but also created female characters that handily solved crimes Smart independent and courageous these nineteenth and early twentieth century female sleuths including a healthy number created by male writers set the stage for Agatha Christie s Miss Marple Sara Paretsky s V I Warshawski Patricia Cornwell s Kay Scarpetta and Sue Grafton s Kinsey Millhone as well as TV detectives such as Prime Suspect s Jane Tennison and Law and Order s Olivia Benson The authors were not amateurs dabbling in detection but professional writers who helped define the genre and competed with men often to greater success Pistols and Petticoats tells the story of women s very early place in crime fiction and their public crusade to transform policing Whether real or fictional investigating women were nearly always at odds with society Most women refused to let that stop them paving the way to a modern professional life for women on the force and in popular culture

Levin,2015-03-23 We all talk about life and death but in doing so use these words in a different manner There before us is a table filled with many ideas and many beliefs or even a lack of belief For some this is all there is and there is no other life but the one we now own For others there is a strong belief in the hereafter In todays world there seems to be a coming together of religious belief and scientific thought processes theories and experimentation This memoir serves not only to tell the story of Donnas and my life together in music prose and poetry but also explores the latest concepts regarding the mystery of the soul We are all of humankind and the quest belongs to all The hour of departure has arrived and we go our separate ways I to die and you to live Which of these two is better only God knows Socrates **The Armchair**
