

Early Childhood Review: Numbers

How to assess the child

The assessment is to assess the child's numeracy number recognition. The teacher points to the letter and the child says the number. The teacher can place a tick at the numbers that the child says correctly.

Remember

Children do get nervous when doing assessments. Try to calm them by using encouraging words and reassure them. If a child is finding something challenging, give them time to do it or move on to something else and come back to it. Give the child breaks between the tasks, as they can get overwhelmed.

Try not to tell the children that they are doing an assessment. The child add to their nervousness.

Ensure that assessments are properly stored in teacher files or assessment files and that unauthorized persons do not view them.
