Direction Of Literary Theory

Ralph Cohen

Direction Of Literary Theory:

The Direction of Literary Theory S. Earnshaw, 1996-10-25 An initial proposition is made that literary theory is divided into two broad antithetical camps one where the focus is purely textual the other where the focus is on context Section One is devoted to resolving this central dichotomy by examining issues that are highly contentious within literary theory the author intention value postmodernism and history Section Two critiques theory as a whole within the arts and discusses its possible existence in this non rational environment It articulates a number of possible responses with consequences for future research and education

New Directions in Literary History Ralph Cohen, 2022-06-30 First published in 1974 *New Directions in Literary History* is a comprehensive attempt to present approaches to literary studies that have developed from phenomenology stylistics and linguistics Marxist reconsiderations of literature interdisciplinary studies and analysis of reader response Written by an international group of scholars the essays are taken from the pages of *New Literary History* They range from the Middle Ages to contemporary literature European and American literary critics are here represented together with an art critic a philosopher and a novelist Their essays deal with crucial problems in the study of literature the relationship of the contemporary critic to works of the past the place of method in literary study how reading takes place the role of the reader in different literary periods in providing a guide to interpretation the language of literature and its relation to natural or ordinary language the origin and decline of literary forms and what constitutes literature especially in the relation between fictional character and autobiography Although the essays are essentially concerned with theoretical issues they also examine the practical applications to literature Students of English literature and literary theory will find this book particularly interesting

Response [Statement on: In What Direction is Literary Theory Evolving?] Jörg Schönert, 2009

The Direction of Literary Theory Steven Earnshaw, 1996-01-01 The book starts from the proposition that literary theory is divided into two broad antithetical camps One camp comprises theories which assume that the text itself is the generator of meaning and significance whereas the other camp holds the basic assumption that meaning and significance are a function of context The first half is devoted to resolving this central dichotomy by examining issues that are highly contentious within literary theory the author intention value postmodernism and history Theory's function within the Arts is then scrutinised in the second half particularly its existence in this non rational environment and a variety of possible responses are outlined All those interested in understanding literary theory today and the possibilities for its future will find this book essential reading

Evolving?] Hans Ulrich Gumbrecht,2009 *Response: Theses on Literary Theory [Statement on: In What Direction is Literary Theory Evolving?]* Harald Fricke,2009 **Generations of Meaning** Steven Earnshaw,1994 **Literary Theory** Terry Eagleton,2011-11-30 A quarter of a century on from its original publication *Literary Theory An Introduction* still conjures the subversion excitement and exoticism that characterized theory through the 1960s and 70s when it posed an unprecedented challenge to the literary establishment Eagleton has added a new preface to this anniversary edition to address more recent developments in literary studies including what he describes as the growth of a kind of anti theory and the idea that literary theory has been institutionalized Insightful and enlightening *Literary Theory An Introduction* remains the essential guide to the field 25th Anniversary Edition of Terry Eagleton's classic introduction to literary theory First published in 1983 and revised in 1996 to include material on developments in feminist and cultural theory Has served as an inspiration to generations of students and teachers Continues to function as arguably the definitive undergraduate textbook on literary theory Reissue includes a new foreword by Eagleton himself reflecting on the impact and enduring success of the book and on developments in literary theory since it was first published *Response: Psychological Foundations of Literary Theory [Statement On: In What Direction is Literary Theory Evolving?]* Colin Martindale,2009 **Islam and New Directions in World Literature** Claire Gallien,Sarah R. Bin Tyeeer,2022-10-20 Since its advent Islam has been a representational force to be reckoned with cross pollinating world literatures in Africa Europe Asia the Pacific Ocean and the Americas Yet scholarship on Islam in world literatures has been sparse despite its significant presence This book understands Islamic literary and cultural heritages as dynamic forces constantly enriched and enlivened by various humanistic traditions in multiple languages spanning the lives of individuals and societies throughout history It is also designed to incorporate a variety of themes influences ramifications and representations of Islam in world literatures in classical and contemporary contexts Exploring Islam's presence in world literatures in two strands on the one hand examining the orientalist versions and usages of Islam and on the other hand analysing the presence of Islam as Islamicate this book advances a consideration of Islam as an agent in the history of World Literature *Response: Literary Theory: Object Theory Or Metatheory?!* [Statement On: In What Direction is Literary Theory Evolving?]

Norbert Groeben,2009 **Directions for Criticism** Murray Krieger,L. S. Dembo,1977 This collection of essays in and on recent critical theory and its backgrounds attempts to clarify what is probably one of the most complex situations in the history of literary criticism The classifier of methodologies can look back only with nostalgia at the simplicity of his problems with the limited warfare among New Critics biographical and historical scholars neo humanists neo Aristotelians and old style Freudians and Marxists Much more confusing these days are the challenges not only to critical method but to the very assumption that there is an object or language for criticism The baffling array of structuralisms post structuralisms and phenomenologies as well as the still lingering versions of older positions now modified to confront these revolutionary alternatives largely continental calls for whatever light can be shed by knowing and

intelligent observer participants The contributors to this volume which appeared originally as the Summer 1976 issue of Contemporary Literature have varying commitments and interests but all are distinguished commentators on and makers of theory The occasion created to simulate them to produce studies that reflect on one another was an imagined symposium on a half dozen representative anthologies of recent criticism These authors also formed the Board of Senior Fellows of the first session of the School of Theory and Criticism at the University of California Irvine where the journal edition was much discussed and debated
