Disability Evaluation:

Handbook of Vocational Rehabilitation and Disability Evaluation Reuben Escorpizo, Sören Brage, Debra Homa, Gerold Stucki, 2014-12-01 This book presents the state of the art in the application and implementation of the WHO's International Classification of Functioning Disability and Health (ICF) in the areas of vocational rehabilitation as a primary topic and disability evaluation as a secondary topic. Application of the ICF and implementation strategies toward a holistic and comprehensive approach to work disability and vocational rehabilitation programs are presented along with clinical cases and exercises. The ICF as a topic in health and disability has been gaining momentum since its approval by the World Health Assembly in 2001 and great progress has been made since then. However, the integration of the ICF in the realm of vocational rehabilitation has been lacking despite the fact that work and employment are a major area in people's lives, particularly those who have work disability. This book will advance the professional practice of vocational rehabilitation, rehabilitation counseling, occupational medicine, and allied health science. Clinical Guide to Mental Disability Evaluations Liza Gold, Donna L. Vanderpool, 2013-01-11 Disability evaluations are the most common clinical mental health evaluations conducted for nontreatment purposes. They place mental health professionals in the role of communicating information that is typically confidential to administrative and legal systems. Unfortunately, mental health professionals receive little to no training in conducting assessments that focus on disability and disability management and often do not understand the implications and risks of providing this information, especially without conducting what are often specialized evaluations. *Clinical Guide to Mental Health Disability Evaluations* is geared for general mental health practitioners, providing them with the basic information needed to competently provide the various types of disability evaluations. It also provides enough information to inform forensic mental health providers in conducting more specialized evaluations. Disability Evaluation Under Social Security, 1987
