Earth And Fire:

Fractalize That! : A Visual Essay On Statistical Geometry John Shier,2018-11-22 Fractalize That A Visual Essay on Statistical Geometry brings a new class of geometric fractals to a wider audience of mathematicians and scientists It describes a recently discovered random fractal space filling algorithm Connections with tessellations and known fractals such as Sierpinski are developed And the mathematical development is illustrated by a large number of colorful images that will charm the readers The algorithm claims to be universal in scope in that it can fill any spatial region with smaller and smaller fill regions of any shape The filling is complete in the limit of an infinite number of fill regions This book presents a descriptive development of the subject using the traditional shapes of geometry such as discs squares and triangles It contains a detailed mathematical treatment of all that is currently known about the algorithm as well as a chapter on software implementation of the algorithm The mathematician will find a wealth of interesting conjectures supported by numerical computation Physicists are offered a model looking for an application The patterns generated are often quite interesting as abstract art Readers can also create these computer generated art with the advice and examples provided

Water, Earth, Fire: Louisiana's Natural Heritage Paul A. Keddy,2008-12-20 Louisiana is one of the most beautiful parts of North America It offers much more than Mardi Gras and Bourbon Street With 25 maps and 60 illustrations this is the first book to introduce the full range of wild places in Louisiana Certainly the states magnificent swamps are described but Louisiana showcases a great diversity of natural habitats prairies longleaf pine savannas oak forests Appalachian forest river valleys cliffs sand dunes and cheniers Each has its distinctive plant and animal species Frogs living in trees fish digging burrows pelicans nesting on offshore islands and plants eating insects as well as wild orchids dwarf palmettos armadillos and Some of the authors favorite places to visit are highlighted and he describes the challenge of conserving wild places for the enjoyment of future generations The book is titled for the water that carries the earth that builds Louisiana and the fires that create the prairies pine forests and savannas If you own only one book about Louisiana nature this is the one to have a perfect gift for student tourist hunter or neighbor Advance Praise This is an impressive guide to the magical and bountiful world of Louisiana nature and an excellent primer in why we should save it not only for the sake of pelicans and woodpeckers and tupelos but for the sake of ourselves Michael Grunwald author of The Swamp The Everglades Florida and the Politics of Paradise Dr Paul Keddy captures what truly is the best about Louisianait's many and varied natural habitats Dr Keddy is more than a gifted scientist He takes the science out of science He describes complex processes in terms that are easy to understand enlightening and enjoyable From the rolling pine forest to cypress swamps to barrier islands from birds to bugs to bears from frogs to fish Dr Keddy covers all that makes Louisiana one of the most unique places on the good planet Earth Carlton Dufrechou Executive Director Lake Pontchartrain Basin Foundation *Fire on Earth* Andrew C. Scott,David M. J. S. Bowman,William J. Bond,Stephen J. Pyne,Martin E. Alexander,2013-10-31 Earth is the only planet known to have fire The

reason is both simple and profound fire exists because Earth is the only planet to possess life as we know it Fire is an expression of life on Earth and an index of life s history Few processes are as integral unique or ancient Fire on Earth puts fire in its rightful place as an integral part of the study of geology biology human history physics and global chemistry Fire is ubiquitous in various forms throughout Earth and belongs as part of formal inquiries about our world In recent years fire literature has multiplied exponentially dedicated journals exist and half a dozen international conferences are held annually A host of formal sciences or programs announcing interdisciplinary intentions are willing to consider fire Wildfire also appears routinely in media reporting This full colour text containing over 250 illustrations of fire in all contexts is designed to provide a synthesis of contemporary thinking bringing together the most powerful concepts and disciplinary voices to examine in an international setting why planetary fire exists how it works and why it looks the way it does today Students lecturers researchers and professionals interested in the physical ecological and historical characteristics of fire will find this book and accompanying web based material essential reading for undergraduate and postgraduate courses in all related disciplines for general interest and for providing an interdisciplinary foundation for further study A comprehensive approach to the history behaviour and ecological effects of fire on earth Timely introduction to this important subject with relevance for global climate change biodiversity loss and the evolution of human culture Provides a foundation for the interdisciplinary field of Fire Research Authored by an international team of leading experts in the field Associated website provides additional resources

Georgia through Earth, Fire, Air and Water Michael P. Berman,2012-05-25 Despite being located on the extreme eastern boundary of Europe and having been frequently conquered by invading people from Asia including Arabs Turks Persians Mongols and more recently Russians Georgians still regard themselves very much as Europeans and it is to becoming a future member state of the EU that the majority of the people now aspire As for the traditional folk tales from the region one of their main characteristics is that they are packed with action Whilst a written literary novel or short story might devote paragraphs to descriptions of people or places these tales usually settle for an adjective or two a thick impassable forest a handsome stately man or a formula such asnot seen beneath the sun beauty Many of the heroes and heroines do not even have names Hunt 1999 p 8 Safely cocooned or so we like to kid ourselves in our sanitised western urban environment we tend to take the elements for granted However tales from a time when the Earth was new help to jolt us out of our daily lethargy as do the stories in this collection a number of which have never been translated from Georgian direct into English before
