**Bully-Proof Kids** Stella O'Malley,2022-03-31 We can't always be there to protect our kids as they make their way in the world. What we can do is equip them with the tools they need to ensure they have a positive social experience. Based on many years' experience counselling bullies and targets, Stella O'Malley offers concrete strategies to empower children and teenagers to deal confidently with bullying and dominant characters. She identifies effective ways for families to cope when bullying occurs, including approaching the school authorities, communicating with the bully's parents, and tips to tackle cyberbullying. Stella's common sense approach will help your child, tween or teen, to develop their emotional intelligence and will provide relief for families navigating the rapidly changing social environment, both online and in school. **Toddler Discipline** Rhonda Hart,2017-05-15 **Toddler Discipline** The Toddler Parenting Guide Book During Those Happy Toddler Years Are you looking at books on toddler discipline? It helps to read advice by those who have children and who have successfully made it through the toddler years. The advice given in this book is in line with the thought that many experts agree upon: to train a child with loving kindness, patience, and positive reinforcements. One thing parents will realize once they have a baby is soon they will have to learn how to discipline a toddler. Disciplining a toddler is not something parents automatically know how to do. When our sweet babies gain the ability to walk and use their legs, they become independent little humans, and they will flex those independent muscles, which can get them into situations that require us to know how to discipline toddlers the right way. It takes great patience to train a child into behaving well. **A Dictionary of Confusable Phrases** Yuri Dolgoplov,2016-02-01 Covering over 10,000 idioms and collocations characterized by similarity in their wording or metaphorical idea, which do not show corresponding similarity in their meanings, this dictionary presents a unique cross-section of the English language. Though it is designed specifically to assist readers in avoiding the use of inappropriate or erroneous phrases, the book can also be used as a regular phraseological dictionary, providing definitions to individual idioms, clichés, and set expressions. Most phrases included in the dictionary are in active current use, making information about their meanings and usage essential to language learners at all levels of proficiency.
