Developing Microcomputer Models for Cost Analysis and Decision Making Vincent F. McCormack, Herbert S. Cassel, 1994

This text aims to help students build strong Lotus skills by leading them through the development of each template. Specific instructions are provided for each step with a discussion of the rationale and operation of new and unfamiliar commands and skills. Formulas are listed and where appropriate discussed with the aim of reinforcing the accounting principles involved. In addition, printouts of each section of the template are provided as a visual reference. **Selected Water Resources**

Abstracts, 1987 **Resources in education**, 1984-09 **Financial Management Training Series: Creating a financial framework** Kay Spearman, 2007 This series is designed to cover all aspects of sound financial management for local governments in developed and developing countries and economies in transition. Concepts of good governance, transparency and accountability are woven into the text of every chapter and the needs and potential obstacles to greater decentralization and democracy are highlighted. Each volume is self-contained with its own Trainer's Guide, exercises and web resources. Chapters are divided into basic and advanced concepts and the detailed relationship of each topic to the others covered in the series is explained.
