The Development Crisis Carlos Geraldo Langoni, 1987 **The Pedagogy of Economic, Political and Social Crises** Bob Jessop, Karim Knio, 2018-11-09 Crises have been studied in many disciplines and from diverse perspectives for at least 150 years Yet recent decades have seen a marked increase in the crisis literature reflecting growing awareness of crisis phenomena from the 1970s onwards Responding to this mainstream literature this edited collection makes six key innovations First it distinguishes between crises as event and crises as process as well as crises as accidental events or as the result of system generated processes Second it distinguishes crises that can be managed through established crisis management routines from crises of crisis management Third it focuses on the symptomatology of crisis i.e the challenge of moving crisis symptoms to understanding underlying causes as a basis for decisive action Fourth it goes beyond the cliché that crises are both threat and opportunity by distinguishing valid accounts of the origins and present nature of a crisis from more speculative accounts of what potentially exists Fifth it explores how crises can disorient conventional wisdom thus provoking efforts to interpret and learn about crises and draw lessons after a crisis has ended Finally the sixth element is the move away from the conventional focus on executive authorities and disaster management agencies instead turning attention towards how other social forces construe crises and attempt to learn from them Offering important insights into the pedagogy of crisis throughout this collection will offer excellent reading to both researchers and postgraduate students

National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria

Mining, Displacement, and Matriliney in Meghalaya Bitopi Dutta, 2022-03-03 This book studies how Development Induced Displacement DID radically restructures gender relations in indigenous tribal societies Through an indepth case study of the Indian state of Meghalaya one of the few matrilineal societies of the world it analyses how people cope with conflicts in their perception of self family and society brought on by the transition from traditional modes of living to increased urbanisation and how these experiences are different for men and women It looks at the ways in which this gendered change is experienced inter generationally in different contexts of people s lives including work and
