Irish Drama, Modernity and the Passion Play Alexandra Poulain, 2017-01-19 This book discusses Irish Passion plays that rewrite or parody the story of the Passion of Christ in modern Irish drama from the Irish Literary Revival to the present day It offers innovative readings of such canonical plays as J M Synge's The Playboy of the Western World W B Yeats's Calvary Brendan Behan's The Hostage Samuel Beckett's Endgame Brian Friel's Faith Healer and Tom Murphy's Bailegangaire as well as of less well known plays by Padraic Pearse Lady Gregory G B Shaw Se n O Casey Denis Johnston Samuel Beckett and David Lloyd Challenging revisionist readings of the rhetoric of blood sacrifice and martyrdom in the Irish Republican tradition it argues that the Passion play is a powerful political genre which centres on the staged death of the usually male protagonist and makes visible the usually invisible violence perpetrated both by colonial power and by the postcolonial state in the name of modernity

Offshore Oildom Tyler Priest, 2016-04-08 Offshore Oildom tells the riveting story of the United States quest to secure the oil riches of the sea Drawing on a wealth of untapped sources Tyler Priest reveals how the offshore oil industry emerged from an ambitious project to incorporate the ocean's submerged lands into the territory of the United States These lands were frontier spaces beyond traditional jurisdiction and control Efforts to commandeer them for oil and gas extraction thus required new institutions of governance From the titanic struggle over the tidelands starting in the 1930s to Project Independence in the 1970s the process of establishing an offshore dominion of oil provoked intractable conflicts over money values and power It pitted coastal states against their land locked counterparts and captains of industry against federal civil servants and coastal communities It stoked partisan and internecine warfare It set off an international race to annex offshore territory complicating U S foreign policy objectives It weighed on the minds of Supreme Court justices and troubled every occupant of the White House from Franklin Roosevelt forward The modern environmental movement was born in opposition to offshore oil just as the 1970s energy crisis compelled the acceleration of drilling in the ocean Creating and governing an offshore oildom involved nothing less than redrawing the territorial borders of the nation rebuilding the political foundations of the U S energy system and testing the environmental limits of resource extraction This history is
