## About Slack

Slack is a workplace collaboration hub that unites teams, information, and tools in one place for a more efficient flow of work. Slack started using Culture Amp in 2015 when they had just two offices. As Slack continues to scale up, feedback and communication are critical in maintaining their culture. We spoke with Dawn Sharifan, VP of People and Sheela Subramanian, Senior Director of Strategic Planning and Programs to learn how Culture Amp helps drive smarter people decisions.

### Meet Dawn

Dawn joined Slack at 150 employees as a founding people leader. Today, Dawn oversees the people partners, people operations, organizational effectiveness, and diversity & inclusion teams. According to Dawn, "Culture Amp sits right at the center of all of these functions."

### Meet Sheela

Sheela joined Slack in 2016 as the first Enterprise Marketing leader. From there, she helped build the global marketing organization and now works closely on strategic programs with Slack's CMO.

"My role today involves ensuring our team has the support and tools they need to thrive. It's hard to measure that – it's not a simple yes or no checkbox – so we use Culture Amp to measure whether we're headed in the right direction and doing our job effectively."

## Key challenges

Company culture is Slack's North Star – the thread that binds together everything they do. But as Slack scaled, Dawn found it hard to maintain the same level of intimacy and communication. "When you get bigger it becomes harder to give feedback. We needed to find a way to formalize feedback and still remain personal enough to build that foundation of trust."

In the face of exponential growth, Slack needed a scalable solution to identify insights and ensure employees had the right resources to do their job effectively. Beyond the demands of rapid growth, the COVID-19 pandemic presented a new set of challenges for the Slack team to navigate.

### Build Your Online Presence and Portfolio

A professional online presence is essential for attracting clients. Start with a simple website or portfolio platform showcasing your best work, testimonials, and core services. Each portfolio item should include a brief case study: the client's challenge, your solution, and measurable outcomes. Use a clean layout and high-quality visuals. Complement your website with active profiles on platforms aligned with your niche: LinkedIn for B2B consulting, Behance for design, GitHub for development, or Upwork for general freelancing. Regularly publish blog posts, project updates, or short tutorials to demonstrate expertise and improve search visibility. Consistency signals credibility.

### Set Your Pricing and Service Packages

Determining rates can feel daunting. Research industry benchmarks and competitor pricing to find a healthy range. You can charge hourly per project or on a retainer. For beginners, hourly rates simplify billing, but project-based fees often appeal more to clients and reward efficiency. Create tiered packages: basic, standard, and premium, each with clear deliverables and price points. For example, offer a blog post at three word counts and price tiers, or a branding package with logo only, logo plus style guide, and complete brand kit. Well-defined packages help clients choose quickly and reduce negotiation friction.

### Find Your First Clients

Landing initial clients often involves leveraging existing networks. Reach out to former colleagues, classmates, or friends and let them know you're freelancing. Offer a small discounted pilot project in exchange for feedback and testimonials. Simultaneously, explore online marketplaces like Upwork, Freelancer, or specialized job boards. Craft personalized
