Dyslexia

Margaret J. Snowling, 1991-01-15 This book sets out a new framework for understanding both the development of reading and spelling skills and the problems many children have in acquiring them Developmental dyslexia is best understood Margaret Snowling argues in terms of the interaction between a child's cognitive make up and the demands of learning to read At critical times in their development dyslexic children do not possess the specific cognitive skills which are conducive to reading and spelling Making clear the limitations of traditional medical and educational theories of dyslexia Margaret Snowling writes from the standpoint of cognitive and developmental psychology She considers not only the causes of reading and spelling problems but also how in spite of their difficulties dyslexic children can and do learn to read how they accomplish a level of literacy which initially seems beyond them She concludes by asking what psychological research can tell us about the best means of helping dyslexic children

Conference Meeting the challenge

Language and Cognitive Development in Second Language Learning Virginia Gonzalez, 1999
Major problems exist of differently diagnosing language minority children who are in the process of learning English as a second language and even sometimes show low levels of language proficiency
These children are often over represented in special education classes when in fact they are normal children or even superior in the process of learning English as a second language
These children are also under represented in gifted classes due to inappropriate tests and models used as well as negative attitudes and lack of knowledge on the part of the teachers and evaluators
This edited volume seeks to increase the availability of research derived knowledge and educational applications in the field of second language learning
Virginia Gonzalez offers a rare and highly creative approach to second language acquisition research by applying contemporary cognitive psychology theory as a framework for investigating bilingual issues
The book offers a coherent and unified philosophy and context presenting original research studies that provide a multidimensional socioeducational view to second language learning and instruction in children and adults
Gonzalez and her colleagues assume the identity of the Ethnic Researcher thereby emphasizing the need to include cultural and linguistic factors when studying assessing and instructing second language learners
