Cogan, 2012-03-15 More than five thousand American civilian men women and children living in the Philippines during World War II were confined to internment camps following Japan's late December 1941 victories in Manila Captured tells the story of daily life in five different camps the crowded housing mounting familial and international tensions heavy labor and increasingly severe malnourishment that made the internees rescue a race with starvation Frances B Cogan explores the events behind this nearly four year captivity explaining how and why this little known internment occurred A thorough historical account the book addresses several controversial issues about the internment including Japanese intentions toward their prisoners and the U S State Department's role in allowing the presence of American civilians in the Philippines during wartime Supported by diaries memoirs war crimes transcripts Japanese soldiers accounts medical data and many other sources Captured presents a detailed and moving chronicle of the internees efforts to survive Cogan compares living conditions within the internment camps with life in POW camps and with the living conditions of Japanese soldiers late in the war An afterword discusses the experiences of internment survivors after the war combining medical and legal statistics with personal anecdotes to create a testament to the thousands of Americans whose captivity haunted them long after the war ended [American Foreign Relations Reconsidered](#) Gordon Martel, 2002-11 Brings together 12 scholars of US foreign relations Each contributor provides a concise summary of an important theme in US affairs since the Spanish American War US policy process economic interests relations with the Third World and the nuclear arms race have been highlighted **Wisdom**, 2005 *Policing America's Empire* Alfred W. McCoy, 2009-10-15 At the dawn of the twentieth century the U S Army swiftly occupied Manila and then plunged into a decade long pacification campaign with striking parallels to today's war in Iraq Armed with cutting edge technology from America's first information revolution the U S colonial regime created the most modern police and intelligence units anywhere under the American flag In *Policing America's Empire* Alfred W McCoy shows how this imperial panopticon slowly crushed the Filipino revolutionary movement with a lethal mix of firepower surveillance and incriminating information Even after Washington freed its colony and won global power in 1945 it would intervene in the Philippines periodically for the next half century using the country as a laboratory for counterinsurgency and rearming local security forces for repression In trying to create a democracy in the Philippines the United States unleashed profoundly undemocratic forces that persist to the present day But security techniques bred in the tropical hothouse of colonial rule were not contained McCoy shows at this remote periphery of American power Migrating homeward through both personnel and policies these innovations helped shape a new federal security apparatus during World War I Once established under the pressures of wartime mobilization this distinctively American system of public private surveillance persisted in various forms for the next fifty years as an omnipresent sub rosa matrix that honeycombed U

S society with active informers secretive civilian organizations and government counterintelligence agencies In each succeeding global crisis this covert nexus expanded its domestic operations producing new contraventions of civil liberties from the harassment of labor activists and ethnic communities during World War I to the mass incarceration of Japanese Americans during World War II all the way to the secret blacklisting of suspected communists during the Cold War
