The Artist at Home Imogen Racz, Jill Journeaux, 2024-01-11 Artists have worked from home for many reasons including care duties financial or political constraints or availability and proximity to others From the home studios of Charles and Ray Eames to the different photographic representations of Robert Rauschenberg s studio this book explores the home as a distinct site of artistic practice and the traditions and developments of the home studio as concept and space throughout the 20th and into the 21st century Using examples from across Europe and the Anglophone world between the mid 20th century and the present each chapter considers the different circumstances for working at home the impact on the creative lives of the artists their identities as artists and on the work itself and how sometimes these were projected and promoted through photographs and the media Key themes include the gendered and performative aspects of women practising at home collaborative studio communities of the 1970s 90s including the appropriation of abandoned spaces in East London and the effects of Covid on artistic practices and family life within the spaces of home The book comprises full length chapters by artists architects art and design historians each of whom bring different perspectives to the issues interwoven with short interviews with artists to enrich and broaden the debates At a time when individual relationships to home environments have been radically altered The Artist at Home considers why some artists in previous decades either needed to or chose to work from home producing work of vitality and integrity Tracing this long tradition into the present the book will provide a deeper understanding of how the home studio has affected the practices and identity of artists working in different countries and in different circumstances from the mid 20th century to the present

Nothing Permanent Todd Cronan, 2023-06-20 A critical look at the competing motivations behind one of modern architecture s most widely known and misunderstood movements Although mid century modern has evolved into a highly popular and ubiquitous architectural style this term obscures the varied perspectives and approaches of its original practitioners In Nothing Permanent Todd Cronan displaces generalizations with a nuanced intellectual history of architectural innovation in California between 1920 and 1970 uncovering the conflicting intentions that would go on to reshape the future of American domestic life Focusing on four primary figures R M Schindler Richard Neutra and Charles and Ray Eames Nothing Permanent demonstrates how this prolific era of modern architecture in California rather than constituting a homogenous movement was propelled by disparate approaches and aims Exemplified by the twin pillars of Schindler and Neutra and their respective ideological factions these two groups of architects represent opposing poles of architectural intentionality embodying divergent views about the dynamic between interior and exterior the idea of

permanence and the extent to which architects could exercise control over the inhabitants of their structures Looking past California modernism's surface level idealization in present day style guides home decor publications films and television shows Nothing Permanent details the intellectual aesthetic and practical debates that lie at the roots of this complex architectural moment Extracting this period from its diffusion into visual culture Cronan argues that mid century architecture in California raised questions about the meaning of architecture and design that remain urgent today The Grove Encyclopedia of American Art Joan M.
