**Early Christian Ireland** Eleanor Hull, 1905 [The Origins of Early Christian Ireland](#) Harold Mytum, 2024-11-18 The cultural developments of Early Christian Ireland have long been recognised and described There have however been few attempts to date to explain why the flowering of culture should happen at the time and in the way that it did First published in 1992 The Origins of Early Christian Ireland now with a new preface by the author explains changes in the period up to AD 800 in Ireland External stimuli most notably from Irish settlers in western Britain acted as catalysts which transformed a relatively moribund Iron Age culture into one of extraordinary vigour All aspects of the culture changed radically and changes in each had knock on effects on others Beliefs were revolutionised by Christianity society was transformed by the church as an institution and the rise of the individual agriculture was expanded by more advanced technology and the entrepreneurial flair of individual decision making craft production became more widespread and offered a vehicle for the display of personal wealth and status Long distance trade and ecclesiastical contacts integrated Ireland with the rest of Europe more effectively than ever before The book has two distinctive features which means that it relates to two forms of academic market each of which can be defined Firstly it deals with a particular culture historical period that of Early Christian Ireland and presents an explanation of its origins and development to AD 800 This appeals to archaeologists and historians of Ireland Britain and indeed Europe Secondly it takes a specific theoretical position and develops it using primarily archaeological but also extensive historical information This is the most detailed application of processualist theory yet undertaken for a historic period in Europe This appeals to archaeologists and anthropologists in Britain and also North America where the processualist approach is the most popular theoretical position

*Ireland (Classic Reprint)* Eleanor Hull, 2015-07-09 Excerpt from Early Christian Ireland In the following account of the Social and Church life of Christian Ireland I have as far as possible let the old records tell their own story refraining from unnecessary comment My object is not to discuss the position and religious beliefs of the Irish Church but to show the practical effect of its influence on the daily life of the people There will always be questions connected with the discipline and doctrines of the Irish Church which will be answered differently according to the stand point from which we set out to examine them So much attention has been concentrated upon these questions that it would sometimes seem as though the whole history of this most interesting period of the nations life were supposed to be dependant on the solution that is given to them Meanwhile the clear and fascinating picture of the social life of the time given in the lives of the early saints and the remarkable developments in the national character and conditions consequent on their teaching and system of things have been lost sight of From a purely historical point of view a clear grasp of these changes and conditions is essential and it is on these that we have fixed our attention About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
