Early Irish History And Chronology

Christopher Allen Snyder

Early Irish History And Chronology:

Early Irish History and Chronology Dáibhí Ó Cróinín, 2003 This book is a collection of fourteen of Professor Cróinín's articles on Old Irish and early Irish history centering mainly on the calculation of Easter in the Christian calendar *The Gaelic Background of Old English Poetry before Bede* Colin A. Ireland, 2022-01-19 Seventh century Gaelic law tracts delineate professional poets *filid* who earned high social status through formal training These poets cooperated with the Church to create an innovative bilingual intellectual culture in Old Gaelic and Latin Bede described Anglo Saxon students who availed themselves of free education in Ireland at this culturally dynamic time Gaelic scholars called *sapientes* wise ones produced texts in Old Gaelic and Latin that demonstrate how Anglo Saxon students were influenced by contact with Gaelic ecclesiastical and secular scholarship Seventh century Northumbria was ruled for over 50 years by Gaelic speaking kings who could access Gaelic traditions Gaelic literary traditions provide the closest analogues for Bede's description of Caedmon's production of Old English poetry This ground breaking study displays the transformations created by the growth of vernacular literatures and bilingual intellectual cultures Gaelic missionaries and educational opportunities helped shape the Northumbrian Golden Age its manuscripts hagiography and writings of Aldhelm and Bede *Bede and Time* Máirín MacCarron, 2019-09-19 Awarded the Irish Historical Research Prize 2021 The Venerable Bede c 673-735 was the leading intellectual figure of the early Anglo Saxon Church and his extensive corpus of writings encompassed themes of exegesis computus dating of Easter and construction of calendars history and hagiography Rather than look at these works in isolation Máirín MacCarron argues that Bede's work in different genres needs to be read together to be properly understood This book provides the first integrated analysis of Bede's thought on time and demonstrates that such a comprehensive examination allows a greater understanding of Bede's writings on time and illuminates the place of time and chronology in his other works Bede was an outstanding intellect whose creativity and ingenuity were apparent in various genres of writing This book argues that in innovatively combining computus theology and history Bede transformed his contemporaries' understanding of time and chronology **Bede and the Future** Dr Faith Wallis, Dr Peter Darby, 2014-11-28 Bede c 673-735 was Anglo Saxon England's most prominent scholar and his body of work is among the most important intellectual achievements of the entire Middle Ages *Bede and the Future* brings together an international group of Bede scholars to examine a number of questions about Bede's attitude towards and ideas about the time to come This encompasses the short term future Bede's own lifetime and the time soon after his death and the end of time Whilst recognising that these temporal perspectives may not be completely distinct the volume shows how Bede's understanding of their relationship undoubtedly changed over the course of his life Each chapter examines a distinct aspect of the subject whilst at the same time complementing the other essays resulting in a comprehensive and coherent volume In so doing the volume asks and answers new questions about Bede and his ideas about the future and will undoubtedly stimulate further research in this field **Addressing Injustice in the**

Medieval Body Politic Constant Jan Mews, Kathleen Neal, 2025-10-01 Justice and injustice were subjects of ongoing debate in medieval Europe. Received classical and biblical models both influenced how these qualities of moral and political life were perceived, discussed, and acted upon. Important among these influences was the anonymous seventh-century Irish text *On the Twelve Abuses of the Age*, a biblically inspired discussion of the moral duties particular to each sector of society. This volume probes its long influence and its interaction with the revival of classical ideas. By bringing together scholars of political thought and practice in lay and religious contexts spanning the seventh to fourteenth centuries, this volume crosses boundaries of periodisation, discipline, and approach to reflect upon the medieval evolution of concepts of injustice and means of redress. Contributions address how ideas about justice and injustice were discussed among scholars and theologians and how those ideas were translated into action through complaint and advice throughout the medieval period. Crosses conventional chronological boundaries by dealing with both early and high-later medieval periods. Focuses on the influence of a widely copied but largely unstudied text, *The Twelve Abuses of the Age*, with a multi-national and multi-disciplinary focus involving disciplines of literature, history, and political thought.

Cultures of Eschatology Veronika Wieser, Vincent Eltschinger, Johann Heiss, 2020-07-20 In all religions, in the medieval West as in the East, ideas about the past, the present, and the future were shaped by expectations related to the End. The volumes *Cultures of Eschatology* explore the many ways apocalyptic thought and visions of the end intersected with the development of pre-modern religious, political, and social communities with social changes and with the emergence of new intellectual and literary traditions. The two volumes present a wide variety of case studies from the early Christian communities of Antiquity through the times of the Islamic invasion and the Crusades and up to modern receptions from the Latin West to the Byzantine Empire, from South Yemen to the Hidden Lands of Tibetan Buddhism. Examining apocalypticism, messianism, and eschatology in medieval Christian, Islamic, Hindu, and Buddhist communities, the contributions paint a multi-faceted picture of End-Time scenarios and provide their readers with a broad array of source material from different historical contexts. The first volume, *Empires and Scriptural Authorities*, examines the formation of literary and visual apocalyptic traditions and the role they played as vehicles for defining a community's religious and political enemies. The second volume, *Time, Death, and Afterlife*, focuses on key topics of eschatology: death, judgment, afterlife, and the perception of time and its end. It also analyses modern readings and interpretations of eschatological concepts.
