**The Furniture of Charles and Ray Eames** Mathias Remmele, 2007 The oeuvre of the American designer couple Charles and Ray Eames is extraordinary in its range and diversity. Their groundbreaking furniture designs which have remained current throughout the decades since their creation play a central role in the Eames oeuvre. As the sole authorized manufacturer of Eames designs in Europe and the Middle East for the past 50 years Vitra is commemorating Charles Eames' 100th birthday with the publication of *The Furniture of Charles and Ray Eames*. Grouped into categories based on materials such as plywood plastic wire and aluminum all of the Eames designs produced by Vitra are presented in detail. Reproductions of vintage photographs and documents accompany explanatory texts that provide in depth information on the historical background and distinctive structural features of the furniture designs. Contemporary photographs illustrate the aesthetic quality of these objects. The active preservation of Charles and Ray Eames' legacy is the subject of a dialogue between Rolf Fehlbaum the Chairman of Vitra and Charles' grandson Eames Demetrios the present director of the Eames Office.

*The Design of Herman Miller* Ralph Caplan, 1976 Herman Miller Inc based in Zeeland Michigan is a major American manufacturer of office furniture and equipment as well as furniture for the home. It is notable as one of the first companies to produce modern furniture and under the guidance of Design Director George Nelson is likely the most prolific and influential producer of furniture of the modernist style. Among classic Herman Miller products are the Eames chair Aeron chair Noguchi table Marshmallow sofa and the Eames Lounge Chair. Herman Miller is credited with the invention of the office cubicle originally known as the Action Office II in 1968 under then director of research Robert Propst. Herman Miller holds a unique position among furniture manufacturers for having cultivated the talents of a large number of modernist designers producing a significant number of pieces that are now considered icons of industrial design.
