

Early Monastic Rules

Charles Warren Currier

Early Monastic Rules:

Early Monastic Rules, 1982 Byzantine Monastic Foundation Documents John Philip Thomas, Angela Constantinides Hero, Giles Constable, 2000 The nature of the *typika* discussed by John Thomas in the introduction was one of flexible and personal documents which differed considerably in form length and content Not all of them were foundation documents in the strict sense since they could be issued at any time in the history of an institution Some were wills others were reform decrees and rules yet others were primarily liturgical in character

Monastic Perspectives on Temporality Riitta Hujanen, 2023-08-07 In this book Riitta Hujanen explores temporality in the context of Catholic enclosed contemplative traditions It investigates based on literature and other sources what enclosed contemplatives might say about temporality through their monastic journeys What makes a young person decide to dedicate their life inside a cloister Do contemplatives have a preference for eternity over temporal time How does the enclosed contemplative life impact one's concept of time How is time perceived towards the end of one's monastic journey What is seen when looking back to the years in the enclosed contemplative life What is experienced at the hour of death The answers to these questions illustrate a paradoxical dynamic in monastic journeys that cover a broad historical scope from the earliest monastic writers to contemporary sources

The Story of Monasticism Greg Peters, 2015-08-11 Some evangelicals perceive monasticism as a relic from the past a retreat from the world or a shirking of the call to the Great Commission At the same time contemporary evangelical spirituality desires historical Christian manifestations of the faith In this accessibly written book Greg Peters an expert in monastic studies who is a Benedictine oblate and spiritual director offers a historical survey of monasticism from its origins to current manifestations Peters recovers the riches of the monastic tradition for contemporary spiritual formation and devotional practice explaining why the monastic impulse is a valid and necessary manifestation of the Christian faith for today's church

Wandering Monks, Virgins, and Pilgrims Maribel Dietz, 2010-11-01 Dietz finds that this period of Christianity witnessed an explosion of travel as men and women took to the roads seeking spiritual meaning in a life of itinerancy This book is essential reading for those who study the history of monasticism for it was a monastic context that religious travel first claimed an essential place within Christianity

Children and Family in Late Antique Egyptian Monasticism Caroline T. Schroeder, 2020-09-17 This is the first book length study of children in one of the birthplaces of early Christian monasticism Egypt Although comprised of men and women who had renounced sex and family the monasteries of late antiquity raised children educated them and expected them to carry on their monastic lineage and legacies into the future Children within monasteries existed in a liminal space simultaneously vulnerable to the whims and abuses of adults and also cherished as potential future monastic prodigies Caroline T Schroeder examines diverse sources letters rules saints lives art and documentary evidence to probe these paradoxes In doing so she demonstrates how early Egyptian monasteries provided an intergenerational continuity of social cultural and economic capital while also contesting

the traditional family's claims to these forms of social continuity

Imagining the Self, Constructing the Past Meriem Pagès, Robert G. Sullivan, 2016-09-23 *Imagining the Self Constructing the Past* celebrates the various ways in which the Middle Ages and the Renaissance are adapted, recollected and represented in our own day and age. Most of the chapters fit broadly into one of three categories: namely, the representation of the self in medieval and early modern history and literature; the recollection and utilization of the past in the Middle Ages and the Renaissance; and the role of the medieval and the early modern in our own society. Overall, the contributions to this volume bear witness to the importance of representation to our understanding of ourselves, each other and our shared past.
