Early Modern Textiles:

Fashioning the Early Modern Evelyn S. Welch, 2017 Why were beards suddenly stylish in Europe after 1500 Why did the ruff come in and out of use in the sixteenth and early seventeenth centuries Why did men from Spain to Sweden suddenly decide to adopt wigs around 1660 only to drop the less than fifty years later How did manufacturers and merchants encourage and then respond to changing demands for colourful printed patterns and new cuts and styles of tailoring in the seventeenth and eighteenth centuries As importantly why were some novelties and innovations quickly adopted while others were unsuccessful This book the result of a three year Humanities in the European Research Area project Fashioning the Early Modern Creativity and Innovation in Europe 1500 1800 brings together essays which answer these questions It explores the means by which fashion ideas were disseminated through pattern books gazettes and early newspapers as well as by barbers seamstresses tailors and weavers Spanning three hundred years from 1500 to 1800 the book turns to material culture to answer questions about economic and social innovation in Continental Europe England and Scandinavia The essays demonstrate the value of turning to surviving objects from knitted stockings to silk swatches and the understanding that emerges when we take fashion seriously from dust jacket [Textile Manufactures in Early Modern England](#) Eric Kerridge, 1985 **Early Modern Textiles** Marianne Carlano, Annie Carlano, Nicola J. Shilliam, 1993 *Unfolding the Textile Medium in Early Modern Art and Literature* Tristan Weddigen, 2011 A theory of the textile arts is notably lacking from the narrative of western art history This absence is surprising in light of the great esteem for textiles in medieval and early modern European material culture The present volume questions the reductive modern paradigm of painting and extends the canon of media in contemporary academic practice Authors seek to reconstruct a neglected historical textile discourse from visual and literary sources and to weave a historical picture of a self aware but hitherto particularly taciturn medium of art This book exposes meanings of the textile in early modern visual arts and literature from different disciplinary and methodological perspectives **In-Between Textiles, 1400-1800** Beatriz Marín-Aguilera, Stefan Hanß, 2025-10-01 In *Between Textiles* is a decentred study of how textiles shaped disrupted and transformed subjectivities in the age of the first globalisation The volume presents a radically cross disciplinary approach that brings together world leading anthropologists archaeologists art historians conservators curators historians scientists and weavers to reflect on the power of textiles to reshape increasingly contested identities on a global scale between 1400 and 1800 Contributors posit the concept of in between textiles building upon Homi Bhabha's notion of in betweenness as the actual material ground of the negotiation of cultural practices and meanings a site identified as the battleground over strategies of selfhood and the production of identity signs troubled by colonialism and consumerism across the world In *Between Textiles* establishes cutting edge conversations between textile studies critical cultural theory and material culture studies to examine how textiles created and challenged experiences of subjectivity relatedness and dis location that transformed social fabrics around the globe

Textile Shakespeare Hester Lees-Jeffries, 2025-10-15 *Textile Shakespeare* argues for the vital presence of the textile imagination in the works of Shakespeare and his contemporaries as it explores the economic cultural and social centrality of textiles to life in early modern England Cloth broadly interpreted could function as a form of knowledge skill and expertise of power status and control it was a means of both storing and displaying wealth Cloth especially in the layered forms of early modern dress furnished ways of imagining the body and the body politic the community the city the nation and the self it was also central to thinking about language rhetoric literature and the act of writing In chapters based around different materials linen leather wool silk and processes sewing cutting folding *Textile Shakespeare* recovers this textile liveliness giving a comprehensive and immersive account of the place of textiles in early modern life and thought and exploring and animating Shakespeare's plays in ways that have become largely invisible Grounded in careful and illuminating close reading it explores the entire range of Shakespeare's works on the page and in performance in both the early modern theatre and on the contemporary stage Richly illustrated it includes detailed descriptions of surviving early modern garments and textiles based on first hand experience and amasses and comprehensively reassesses the evidence for costuming and other staging in Shakespeare's time It pays attention to textile labour especially by women and through its careful and original readings of Shakespeare's plays it recovers the emotional and physical impact of clothing and other textiles on the lives and experiences of early modern people
