You don't need theory. You need calls. I wrote this for local owners who want a clear path to show up in Google Maps and organic search, then turn visitors into booked jobs. Here's the order of operations you'll follow: Google Business Profile categories, services, photos, and the small edits that move you to the short list. Money pages: a phone first layout, one offer, and proof that answers. Why you in seconds. Internal links: a simple loop that guides people to your best pages without hiding the contact button. Reviews: what to ask for, when to ask, and how to show them so they build trust. Content that earns clicks: short answers to real questions customers ask before they call. Links and citations: how to get the ones that count. Clean up bad records and ignore the noise. Multi-location basics: what belongs on each location page and how to avoid copy-paste junk. Programmatic guardrails: scale pages without tripping quality filters. You'll also get a 90-day plan with weekly steps, quick-win checklists, and snapshots from real businesses. The tone is plain English. Short paragraphs, clear headings, and screenshots you can copy from. This book is for you if:

- 1 You own a local service company and want something you can execute between jobs.
- 2 You've tried blog sprawl and SEO tricks that never led to calls.
- 3 You want a plan you can give to a teammate or an agency and hold them to it. What you won't get: fluff, filler, or vague promises. No long theory chapters. No chasing shiny features that vanish next month. Just the steps that keep producing calls.
