Can 100% remote work attract more qualified candidates? Huong Hoang Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren t any specific regulations regarding remote work in Germany yet In general remote work provides workers e g more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber

security When everything s going remotely companies have become an easier target of cyber attacks

Chapter, 2019-01-12 Every weekday morning working people leave the comfort of their homes to head to work Some of them live so close to their places of employment they re able to walk Others commute on trains in cars and even on bicycles Many of these people dream of working from home They reflect on the joys of awakening and walking with their coffee from the kitchen to their home office even if it s the kitchen table They sigh ruefully not believing that the work from home dream could be theirs if only they were to think a little outside the box I m writing this brief book to let you know that the work from

home dream is for anyone who's willing to reach for it. It's not an impossible dream either. As I write, there are millions of people all over the world working from home. They're in their pajamas at the kitchen table. They're sitting in the park. They're drinking coffee at the corner java joint. Wherever they are, they're making money and they're making it on their terms and on their schedule. Wouldn't you like to be your own boss, keeping the hours that suit you best? Wouldn't you like to make commuting to work a thing of the past? It can be done. This book seeks to prove my point. It's a collection of key information based on case studies which demonstrates that working from home is not just a possibility. It's something that will change your life, recreating it as more prosperous and less stressful, just because you were willing to make a change. But the road to professional independence may not be perfectly smooth. You may not make all your money from one sole revenue stream to start with. That means variety, which is the spice of life. The last time I checked, making a living online and from home means understanding the ebb and flow of work and how to make it flow more than ebb. So come along with me to discover how you can live the dream of working from home, making as much as 10,000 per month. The proof is in the pudding, and this collection of case studies has been prepared to give you a gentle push in the right direction. Let's find out how to get yourself out of the rat race and into a work-from-home situation that pays the bills and makes your life a happier one.
