A Course In Basic Writing:

A Course in Basic Writing Susanna K. Horn, Ken Pramuk, 1996-11 **Basic Writing** Peter Carino, 1991-01-01 **The Resourceful Writer** William Hazzard Barnwell, 1995 **Resourceful Writer** William H. Barnwell, 1998 Basic Writing Peter A. Carino, 1995 *Writing at the State U* Emily Isaacs, 2018-02-21

Writing at the State U presents a comprehensive empirical examination of writing programs at 106 universities. Rather than using open survey calls and self-reporting, Emily Isaacs uses statistical analysis to show the extent to which established principles of writing instruction and administration have been implemented at state comprehensive universities, the ways in which writing at those institutions has differed from writing at other institutions over time, and how state institutions have responded to major scholarly debates concerning first-year composition and writing program administration. Isaacs's findings are surprising: state university writing programs give lip service to important principles of writing research but many still emphasize grammar instruction and a skills-based approach. Classes continue to be oversized, faculty development is optional, and orientation toward basic writing is generally remedial. As such, she considers where a closer match between writing research and writing instruction might help to expose and remedy these difficulties and identifies strategies and areas where faculty or writing program administrators are empowered to enact change. Unique in its wide scope and methodology, *Writing at the State U* sheds much-needed light on the true state of the writing discipline at state universities and demonstrates the advantages of more frequent and rigorous quantitative studies of the field.

Writing on the Margins D. Bartholomae, 2016-05-24

A collection of twenty-one essays by David Bartholomae. *Writing on the Margins* includes selections that have helped shape the discipline of composition studies. With a wide-ranging introduction and three retrospective postscripts to set the essays in context, it serves as a valuable reference and as a powerful introduction to crucial issues in the field. This book has been awarded the MLA's Mina P. Shaughnessy Award, recognizing an outstanding research publication on the teaching of English.

A Basic Writing Course Series, 1958 **Two Roads Diverged and I Took Both** Melanie Mayer, 2010-06-22

Two Roads Diverged and I Took Both Meaningful Writing Instruction in an Age of Testing presents theories, research, and practical ideas for classroom writing instruction, specifically in the areas of the reading-writing connection, the social aspect of writing, grammar instruction, teaching mainstreamed special education or English Language Learners, and assessment. The book's premise is that when research-based best practices are applied, student writing quality is improved and authentic learning takes place, which will also promote success on state-mandated writing assessments but preparing students to write primarily for assessments does not promote excellent writing for life.

Hourigan,1994-09-27 Literacy as Social Exchange examines the intersection of culture and literacy education In particular it explores the roles that class race ethnicity and gender play in students learning to negotiate the conventions of academic discourse It argues that recent literacy scholarship has tended to isolate class gender and culture as discrete marginalizing factors but such isolation may unintentionally silence voices from non Western non mainstream cultures Writing program administrators and writing teachers who are interested in constructing programs that address the needs of all students in increasingly multicultural classrooms will need to examine how cultural factors influence the way students learn to read write and think critically The author points out that some of the most influential scholars writing about the plight of underprivileged writers teach at some of the most exclusive institutions in the nation These basic writers are not nearly so disadvantaged as many of the student writers most writing teachers encounter every day The author explores enrollment trends in higher education that indicate conclusively that writing classrooms will soon be filled with students from non Western non mainstream cultures Because these students rhetorical and literacy traditions will be unlike both those of their teachers and of the basic writers upon which so much literacy scholarship focuses educators and literacy scholars need to increasingly conceptualize literacy in its larger political social and economic contexts **A Basic Writing Course** Carman Edmund Stothers,J.
