A Contemporary Princess:

The Modern Princess Early L. Jackson Jr., 2014-01-31 What do Belle Dorothy and Snow White all have in common They have issues with the men in their lives Interestingly enough weve been spoon fed these tales of relational dysfunction since the crib so no wonder half of all marriages suffer the fate of divorce Often it is the expectations we learn as children that dictate the outcomes of adult life If we are to grow and develop into mature functional relationships it will take revisiting the lessons of the past to create a better tomorrow In this farcical yet relevant work Life Coach Early Jackson approaches the cycle of bad relationships from a fairy tale vantage Women learn there is not a new problem that men present In fact these issues are as old as the stories we heard as children Youll learn from the Real Housewives of Fantasy what it takes to live Happily ever after

Public Theology and the Challenge of Feminism Stephen Burns, Anita Monro, 2015-05-01 Public Theology is a rapidly growing international field of study which focuses on how Christian belief and practice engage with wider social issues Yet whilst the ultimate concern of public theology is the well being of society this body of theology has largely developed without integrating the thinking of feminist theology and its insights into womens lives and experience *Public Theology and the Challenge of Feminism* argues that public theology risks re inscribing traditional constructs of public and private civic and domestic and uncritical notions of gender and the work and worth of people The book brings together both theory and case material to expose how public theology has actively downplayed or ignored feminist perspectives and to reveal how constructive feminism can be for the future of public theology

Animated Encounters Daisy Yan Du, 2019-02-28

China s role in the history of world animation has been trivialized or largely forgotten In *Animated Encounters* Daisy Yan Du addresses this omission in her study of Chinese animation and its engagement with international forces during its formative period the 1940s 1970s She introduces readers to transnational movements in early Chinese animation tracing the involvement of Japanese Soviet American Taiwanese and China s ethnic minorities at socio historical or representational levels in animated filmmaking in China Du argues that Chinese animation was international almost from its inception and that such border crossing exchanges helped make it Chinese and subsequently transform the history of world animation She highlights animated encounters and entanglements to provide an alternative to current studies of the subject characterized by a preoccupation with essentialist ideas of Chineseness and further questions the long held belief that the forty year period in question was a time of cultural isolationism for China due to constant wars and revolutions China s socialist era known for the pervasiveness of its political propaganda and suppression of the arts unexpectedly witnessed a golden age of animation Socialist collectivism reinforced by totalitarian politics and centralized state control allowed Chinese animation to prosper

and flourish artistically In addition the double marginality of animation a minor art form for children coupled with its disarming qualities and intrinsic malleability and mobility granted animators and producers the double power to play with politics and transgress ideological and geographical borders while surviving censorship both at home and abroad A captivating and enlightening history Animated Encounters will attract scholars and students of world film and animation studies children s culture and modern Chinese history
