Jones,1996-09 1901 Plus a course in personal magnetism self control the development of will power the development of power through auto suggestion and the development of power through concentration a complete course in the art of mind reading *A Course of Instruction in the Development of Power Through Clairvoyance* , *A Course of Instruction in the Development of Power Through Clairvoyance (Classic Reprint)* Magnetic Publishing Company Chicago,2018-01-21 Excerpt from A Course of Instruction in the Development of Power Through Clairvoyance There is not a mind so dull but it feels the ash of an inner self the divine spark that makes all men free and equal This equality to be sure is not a matter of personal worth from mental physical or financial standpoints But in the words of the adept Every soul is potentially divine And it is this divinity that is inherent in all men that breaks forth in ashes now and then and the consciousness calls for Power for Strength and for Freedom It is right here that we find the fine dividing point between the philosopher and the fanatic The first realizes that he must develop these powers in himself or others in accord with the mental ability or the conscious ability of the individual He works along these lines and attains a certain point beyond which he cannot go On the other hand the fanatic dives hopelessly into his seances and expects to be put in harmony with all that exists He is disappointed He looks for something that does not exist if he would find these things as his dreams tell him they are he must die He cannot be an angel and a denizen of this sphere all at the same time There is a dividing line and that is called death Avoid trance states If you hope to develop for the sake of witnessing the downfall of an enemy you might as well stop right there You cannot call upon the powers of your soul to stoop to the mean acts that do not even trouble the conscience You must have a good purpose an aim that is worthy or the reaction of your evil intents will cause your psychic downfall Like the Karma Yoga who stops when he is so far developed to demonstrate his power he never

gets any farther Take a care or you will likewise fall With these points in view I will lead you into the mysteries of this hidden power pointing out to you the real things to be considered In fact the art of development is all dependent upon the details and not upon the few minutes work of crystal gazing That is where clairvoyance becomes an art About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
