Anasazi Regional Organization And The Chaco System:

Anasazi Regional Organization and the Chaco System David Elmond Doyel,2001 This updated version includes a chapter Chaco Update 2000 which addresses research on Chaco settlements since the original publication of this volume in 1992

Ancient Burial Practices in the American Southwest Douglas R. Mitchell,Judy L. Brunson-Hadley,2001 Prehistoric burial practices provide an unparalleled opportunity for understanding and reconstructing ancient civilizations and for identifying the influences that helped shape them **Prehistoric Roads and Regional Integration in the Chacoan System** John R.

Roney,Society for American Archaeology. Meeting,1990 **Publications in Archeology** ,1997 *Great House Communities Across the Chacoan Landscape* John Kantner,Nancy M. Mahoney,2000-03 Beginning in the tenth century Chaco Canyon emerged as an important center whose influence shaped subsequent cultural developments throughout the Four Corners area of the American Southwest Archaeologists investigating the prehistory of Chaco Canyon have long been impressed by its massive architecture evidence of widespread trading activities and ancient roadways that extended across the region Research on Chaco Canyon today is focused on what the remains indicate about the social political and ideological organization of the Chacoan people Communities with great houses located some distance away are of particular interest because determining how and why peripheral areas became associated with the central canyon provides insight into the evolution of the Chacoan tradition This volume brings together twelve chapters by archaeologists who suggest that the relationship between Chaco Canyon and outlying communities was not only complex but highly variable Their new research reveals that the most distant groups may have simply appropriated Chacoan symbolism for influencing local social and political relationships whereas many of the nearest communities appear to have interacted closely with the central canyon perhaps even living there on a seasonal basis The multifaceted approach taken by these authors provides different and refreshing perspectives on Chaco Their contributions offer new insight into what a Chacoan community is and shed light on the nature of interactions among prehistoric communities *Inscribed Landscapes* Bruno David,Meredith

Wilson,2002-01-01 Annotation *Inscribed Landscapes* explores the role of inscription in the social construction of place power and identity Bringing together twenty one scholars across a range of fields primarily archaeology anthropology and geography it examines how social codes and hegemonic practices have resulted in the production of particular senses of place exploring the physical and metaphysical marking of place as a means of accessing social history *HISTORIES OF*

MAIZE John Staller,Robert Tykot,Bruce Benz,2006-05-15 *Histories of Maize* is the most comprehensive reference source on the botanical genetic archaeological and anthropological aspects of ancient maize published to date *Archaeology of*

Prehistoric Native America Guy E. Gibbon,2022-01-26 First published in 1998 Did prehistoric humans walk to North America from Siberia Who were the inhabitants of the spectacular Anasazi cliff dwellings in the Southwest and why did they disappear Native Americans used acorns as a major food source but how did they get rid of the tannic acid which is toxic to humans

How does radiocarbon dating work and how accurate is it Written for the informed lay person college level student and professional Archaeology of Prehistoric Native America An Encyclopedia is an important resource for the study of the earliest North Americans including facts theories descriptions and speculations on the ancient nomads and hunter gathers that populated continental North America *The Archaeology of Chaco Canyon* Stephen H. Lekson,2006 The site of a great Ancestral Pueblo center in the 11th and 12th centuries AD the ruins in Chaco Canyon look like a city to some archaeologists a ceremonial center to others Chaco and the people who created its monumental great houses extensive roads and network of outlying settlements remain an enigma in American archaeology Two decades after the latest and largest program of field research at Chaco the National Park Service s Chaco Project 1971 1982 the original researchers and other leading Chaco scholars convened to evaluate what they now know about Chaco in light of new theories and new data Those meetings culminated in an advanced seminar at the School for Advanced Research where the Chaco Project itself was born in 1968 In this capstone volume the contributors address central archaeological themes including environment organization of production architecture regional issues and society and polity They place Chaco in its time and in its region considering what came before and after its heyday and its neighbors to the north and south including Mesoamerica *The Kiva* ,2002

Beyond Chaco Sarah A. Herr,2001-12-01 During the eleventh and twelfth centuries A D the Mogollon Rim region of east central Arizona was a frontier situated beyond and between larger regional organizations such as Chaco Hohokam and Mimbres On this southwestern edge of the Puebloan world past settlement poses a contradiction to those who study it Population density was low and land abundant yet the region was overbuilt with great kivas a form of community level architecture Using a frontier model to evaluate household community and regional data Sarah Herr demonstrates that the archaeological patterns of the Mogollon Rim region were created by the flexible and creative behaviors of small scale agriculturalists These people lived in a land rich and labor poor environment in which expediency mobility and fluid social organization were the rule and rigid structures and normative behaviors the exception Herr s research shows that the eleventh and twelfth century inhabitants of the Mogollon Rim region were recent migrants probably from the southern portion of the Chacoan region These early settlers built houses and ceremonial structures and made ceramic vessels that resembled those of their homeland but their social and political organization was not the same as that of their ancestors Mogollon Rim communities were shaped by the cultural backgrounds of migrants by their liminal position on the political landscape and by the unique processes associated with frontiers As migrants moved from homeland to frontier a reversal in the proportion of land to labor dramatically changed the social relations of production Herr argues that when the context of production changes in this way wealth in people becomes more valuable than material wealth and social relationships and cultural symbols such as the great kiva must be reinterpreted accordingly *Beyond Chaco* expands our knowledge of the prehistory of this region and contributes to our understanding of how ancestral communities were constituted in lower

population areas of the agrarian Southwest The Puebloan Society of Chaco Canyon Paul Reed,2004-09-30 A glossary of terms illustrations maps and recommended sources for further inquiry round out the volume BOOK JACKET The Architecture of Chaco Canyon, New Mexico Stephen H Lekson,2007-06-29 A fresh volume on the ancient structures of Chaco Canyon built by native peoples between AD 850 and 1130 that unifies older information on the area with new advanced research techniques focusing on studies of technology and building types analyses of architectural change and readings of the built environment aided by over 150 maps floor plans elevations and photos **Chaco Canyon** Brian M. Fagan,2005 Beautifully illustrated with color and black and white photographs Chaco Canyon draws on the very latest research on Chaco and its environs to tell the remarkable story of the people of the canyon from foraging bands and humble farmers to the elaborate society that flourished between the 10th and 12th centuries A D **A History of the Ancient Southwest** Stephen H. Lekson,2009 According to archaeologist Stephen H Lekson much of what we think we know about the Southwest has been compressed into conventions and classifications and orthodoxies This book challenges and reconfigures these accepted notions by telling two parallel stories one about the development personalities and institutions of Southwestern archaeology and the other about interpretations of what actually happened in the ancient past While many works would have us believe that nothing much ever happened in the ancient Southwest this book argues that the region experienced rises and falls kings and commoners war and peace triumphs and failures In this view Chaco Canyon was a geopolitical reaction to the Colonial Period Hohokam expansion and the Hohokam Classic Period was the product of refugee Chacoan nobles chased off the Colorado Plateau by angry farmers Far to the south Casas Grandes was a failed attempt to create a Mesoamerican state and modern Pueblo people with societies so different from those at Chaco and Casas Grandes deliberately rejected these monumental hierarchical episodes of their past From the publisher The second printing of A History of the Ancient Southwest has corrected the errors noted below SAR Press regrets an error on Page 72 paragraph 4 also Page 275 note 2 regarding absolute dates 50 000 dates was incorrectly published as half a million dates Also P 125 lines 13 14 Between 21 000 and 27 000 people lived there should read Between 2 100 and 2 700 people lived there **The Chaco Experience** Ruth M. Van Dyke,2008 In a remote canyon in northwest New Mexico thousand year old sandstone walls waver in the sunlight stretching like ancient vertebrae against a turquoise sky This storied place Chaco Canyon carries multiple layers of meaning for Native Americans and archaeologists writers and tourists explorers and artists Here isolation the arid climate and dry laid construction have preserved ruins that are monuments to prehistoric creativity and perseverance Chaco Canyon draws its power not only from the ancient architecture sheltering beneath its walls but from the ever changing light and the far flung vistas of the Colorado Plateau Light and shadow stone and sky come together in the canyon At the heart of this sky filled landscape lie twelve massive great houses The Chacoan landscape with its formally constructed carefully situated architectural features is charged with symbolism In this volume Ruth Van Dyke analyzes the meanings and experience of

Becoming Aztlan Carroll L. Riley, 2005 An extensively illustrated and ambitious overview of the continuities in culture between the American Southwest and the adjacent northwest of Mexico supported by an argument that a drastic socio-religious transformation occurred in the Southwest region during a period called Aztlan **Prehistoric Warfare in the American Southwest** Steven A. LeBlanc, 1999 Most people today including many archaeologists view the Pueblo people of the Southwest as historically peaceful sedentary corn farmers In *Prehistoric Warfare in the American Southwest* Steven LeBlanc demonstrates how the prevailing picture of the ancient Puebloans is highly romanticized Taking a pan Southwestern view of the entire prehistoric and early historic time range and considering archaeological and ethnohistorical evidence and oral traditions he presents a different picture Objectively sought evidence of war and its consequences is abundant The people of the region fought for their survival and evolved their societies to meet the demands of conflict
