Ancient Cities:

Cities That Shaped the Ancient World John Julius Norwich, 2014-11-11 An illuminating and evocatively illustrated tour of forty of the greatest cities that shaped the ancient world and its civilizations from China and Mesoamerica to Europe and Ethiopia Today we take living in cities with all their attractions and annoyances for granted But when did humans first come together to live in large groups creating an urban landscape What were these places like to inhabit More than simply a history of ancient cities this volume also reveals the art and architecture created by our ancestors and provides a fascinating exploration of the origins of urbanism politics culture and human interaction Arranged geographically into five sections Cities That Shaped the Ancient World takes a global view beginning in the Near East with the earliest cities such as Ur and Babylon Troy and Jerusalem In Africa the great cities of Ancient Egypt arose such as Thebes and Amarna Glorious European metropolises including Athens and Rome ringed the Mediterranean but also stretched to Trier on the turbulent frontier of the Roman Empire Asia had bustling commercial centers such as Mohenjodaro and Xianyang while in the Americas the Mesoamerican and Peruvian cultures stamped their presence on the landscape creating massive structures and extensive urban settlements in the deep jungles and high mountain ranges including Caral and Teotihuacan A team of expert historians and archaeologists with firsthand knowledge and deep appreciation of each site gives voices to these silent ruins bringing them to life as the bustling state of the art metropolises they once were

The Life and Death of Ancient Cities Greg Woolf, 2020-07-17 The human race is on a 10 000 year urban adventure Our ancestors wandered the planet or lived scattered in villages yet by the end of this century almost all of us will live in cities But that journey has not been a smooth one and urban civilizations have risen and fallen many times in history The ruins of many of them still enchant us This book tells the story of the rise and fall of ancient cities from the end of the Bronze Age to the beginning of the Middle Ages It is a tale of war and politics pestilence and famine triumph and tragedy by turns both fabulous and squalid Its focus is on the ancient Mediterranean Greeks and Romans at the centre but Phoenicians and Etruscans Persians Gauls and Egyptians all play a part The story begins with the Greek discovery of much more ancient urban civilizations in Egypt and the Near East and charts the gradual spread of urbanism to the Atlantic and then the North Sea in the centuries that followed The ancient Mediterranean where our story begins was a harsh environment for urbanism So how were cities first created and then

sustained for so long in these apparently unpromising surroundings How did they feed themselves where did they find water and building materials and what did they do with their waste and their dead Why in the end did their rulers give up on them And what it was like to inhabit urban worlds so unlike our own cities plunged into darkness every night cities dominated by the temples of the gods cities of farmers cities of slaves cities of soldiers Ultimately the chief characters in the story are the cities themselves Athens and Sparta Persepolis and Carthage Rome and Alexandria cities that formed great families Their story encompasses the history of the generations of people who built and inhabited them whose short lives left behind monuments that have inspired city builders ever since and whose ruins stand as stark reminders to the 21st century of the perils as well as the potential rewards of an urban existence
