**Andras Beck , Worlds of Hungarian Writing** András Kiséry,Zsolt Komáromy,Zsuzsanna Varga,2016-05-12 Worlds of Hungarian Writing responds to the rapidly growing interest in Hungarian authors throughout the English speaking world Addressing an international audience the essays in the collection highlight the intercultural contexts that have molded the conventions genres and institutions of Hungarian writing from the nineteenth century to the present They are mapping some of the ways in which a modern literature is produced by encounters with languages cultures and media external to its traditionally conceived boundaries But rather than viewing intercultural exchange as an external force the collection recognizes its enabling importance to the globalizing reception and circulation of Hungarian writing over the continuities and constraints implied by more traditional national narratives Worlds of Hungarian Writing posits intercultural exchange as the very substance of a literary culture Discussions of the politics of appropriation and translation of the impact of migr writers and critics and of the use of world literary models in genre formation complement studies of the fate of western leftist critical theory in post 1989 Hungary of the role of African American models in contemporary Roma culture and of the use of photography in late 20th century prose The volume spans a wide generic range from the achievements of such canonical 19th century critics and poets as J zsef Bajza and J nos Arany to neglected women authors translators such as Theresa Pulszky to modernist writers and critics like Antal Szerb and Gy rgy Luk cs and to the contemporary novelists P ter Esterh zy P ter N das and L szl Krasznahorkai Each essay is an original contribution to comparative literature and to the study of this Central European literature but is intended to be accessible to readers unfamiliar with its traditions *Take Care of Freedom and Truth Will Take Care of Itself* Richard Rorty,Eduardo Mendieta,2006 This volume collects a number of important and revealing interviews with Richard Rorty spanning more than two decades of his public intellectual commentary engagement and criticism In colloquial language Rorty discusses the relevance and nonrelevance of philosophy to American political and public life The collection also provides a candid set of insights into Rorty s political beliefs and his commitment to the labor and union traditions in this country Finally the interviews reveal Rorty to be a deeply engaged social thinker and observer

et documentaire des peintres sculpteurs dessinateurs et graveurs based on the 14 volume French edition published in 1999 It has been revised adapted and updated Preface **Budapest Scientific** István Hargittai, Magdolna Hargittai, 2015-03-26 This guidebook introduces the reader to the visible memorabilia of science and scientists in Budapest statues busts plaques buildings and other artefacts According to the Hungarian American Nobel laureate Albert Szent Gy rgyi this metropolis at the crossroads of Europe has a special atmosphere of respect for science It has been the venue of numerous scientific achievements and the cradle literally of many individuals who in Hungary and even more beyond its borders became world renowned contributors to science and culture Six of the eight chapters of the book cover the Hungarian Nobel laureates the Hungarian Academy of Sciences the university the medical school agricultural sciences and technology and engineering One chapter is about selected secondary schools from which seven Nobel laureates Szent Gy rgyi de Hevesy Wigner Gabor Harsanyi Olah and Kert sz and the five Martians of Science von K r m n Szilard Wigner von Neumann and Teller had graduated The concluding chapter is devoted to scientist martyrs of the Holocaust A special feature in surveying Hungarian science is the contributions of scientists that left their homeland before their careers blossomed and made their seminal discoveries elsewhere especially in Great Britain and the United States The book covers the memorabilia referring to both migr scientists and those that remained in Hungary The discussion is informative and entertaining The coverage is based on the visible memorabilia which are not necessarily proportional with achievements Therefore there is a caveat that one could not compile a history of science relying solely on the presence of the memorabilia **Saint-John Perse and the Imaginary Reader** Steven Winspur, 1988 **Imagining Postcommunism** Beverly A. James, 2005-03-29 Although the 1956 Hungarian uprising failed to liberate the country from Soviet domination it became a symbol of freedom for people throughout Eastern Europe and beyond Labeling the events a counterrevolution communist authorities exacted revenge in two years of terror and intimidation Then for the next thirty years they pursued a policy of forced forgetting attempting to obliterate public memory of the events As communism unraveled in the late 1980s the 1956 revolution was resurrected as inspiration for a new political order In *Imagining Postcommunism* Beverly James demonstrates how 1956 became a foundational myth according to which the bloody events of that fall led to the ceremonial reburial of the martyred prime minister Imre Nagy in 1989 free elections in 1990 and the withdrawal of the last Soviet soldiers on June 19 1991 She shows how museums monuments and holiday rituals have aided the construction of a new Hungary through the reclamation and expression of competing memories of the critical events of 1956 Surveying the dazzling array of ceremonies exhibitions and memorials commemorating the revolution and its heros James invites readers to consider the difference between the communist regime s master narrative of 1956 with its smug false unity and the multiple polemical stories woven by competing political forces in postcommunist Hungary A thoughtful application of communication and historical theories on the uses of memory this study offers a unique perspective on a crucial episode in the history of Eastern Europe **National Union Catalog** , 1982
