A Coming Of Wizards A Manual Of Human Potential:

Building Positive Peace Christina Campbell, Simon Cordery, 2023-02-16 This book coherently maps a path to sustainable global peace Written by a team of scholars from many disciplines each contribution provides one way to shift us from our current way of being and onto the path to peace The work identifies a group of approaches relevant to the contemporary world and the crises we face It covers politics the environment food security architecture and other areas of human activity The authors see positive peace as a way to encourage humans to actively create a peace filled world Their essays suggest how together we can ensure that human flourishing is possible for all people Peace activists environmentalists and climate scientists will find this a fascinating and thought provoking read

Subverting Consumerism Robert Crocker, Keri Chiveralls, 2018-07-24 There is now a widespread interest in reuse in many domains from opera houses built over old warehouses to vintage clothes and everyday goods incorporating repurposed materials or parts Despite its ubiquity this extensive creative work is typically seen in narrowly environmental terms as a means of reducing carbon resource use or waste However as this volume shows reuse also has aesthetic and cultural dimensions and a rich social currency invoked to consciously subvert the accelerated consumer culture responsible for our unfolding environmental crisis In three parts the essays in this book consider reuse in terms of values aesthetics and meaning its application in contemporary urban and spatial settings and the revival of social practices involving a more conscious recourse to reuse and repair These are bookended by the editors essays the first on the significant relationship between reuse and technological and social acceleration evident in the surrounding consumer society and the last on the multiple forms of reuse deployed in a contemporary alternative building practice and their contributions to presenting alternative ways of living in the world Challenging dominant understandings of waste and consumption *Subverting Consumerism* shows how reuse has become a means for many to creatively engage with the past and to discover a continuity and sense of place eroded by the accelerative regimes of contemporary consumerism Becoming a means of resistance and offering a range of aesthetic social and economic possibilities reuse can be found to subvert and challenge the obsessive quest for the new found in contemporary consumerism

The Greening of Everyday Life John M. Meyer, Jens Kersten, 2016-09-05 *The Greening of Everyday Life* develops a distinctive new way of talking about environmental concerns in post industrial society It brings together several conceptual frameworks with a diversity of case studies and practical examples of efforts to orient everyday material practices toward greater sustainability The volume builds upon internal criticisms of dominant strands of contemporary environmentalism in post industrial societies and develops a new approach which emerges from a number of disciplines but is unified by a normative concern for the material objects and practices familiar to members of societies in their everyday lives In exploring alternatives the chapter authors utilize conceptual frameworks rooted in environmental justice new materialism and social practice theory and apply it to the everyday attention to urban biodiversity infrastructure for storm
