A Measured Life The Times Places Of An Orphaned Intellectual:

Cultural Studies 50 Years On Kieran Connell, Matthew Hilton, 2016-09-30 Stuart Hall conceptualized his time at the Centre for Contemporary Cultural Studies as a series of interruptions. It was this fluidity that gave rise to Hall's conception of cultural studies as a moving target, a fusion of a range of disciplinary approaches that was uniquely influenced by politics in the world beyond the academy. The political commitments of those at the Centre were wide ranging and from its embrace of collective ways of research and decision making to its deployment of various strands of European Marxist theory had a critical impact on the Centre's working practices. Yet as the diverse work of many of these same scholars has shown the political climate of the present day is almost unrecognizable from that of the mid 1960s to the mid 1980s, arguably the most productive period in the Centre's history. *Cultural Studies 50 Years On* explores how the political, social and cultural contexts of the early 21st century influenced the object and method of doing cultural studies. In bringing together a historical reassessment of the Centre with present day questions regarding the future of the field, the aim is not to reduce cultural studies to the work of a single, now defunct institution. Instead, it aims to utilize what is a critical moment in the trajectory of the field in order to take stock of where it has come from and to explore where it might be going.

Only in the Common People Paul Long, 2008-12-18 corrupt and moronic though the common people are seemingly becoming, only in the common people can the true work be rooted, the true tradition rediscovered and re-informed. Charles Parker, BBC Radio Producer, 1959. In 1958, in his best-selling book *Culture and Society*, Raymond Williams identified working class culture as a key issue in our own time. Why this happened and how this subject was thought about and acted upon is the focus of this book. Paul Long investigates a variety of projects and practices that were designed to describe, validate, reclaim, rejuvenate or generate authentic working class culture as part of the re-imagining of Britishness in the context of the post-war settlement. Detailed case studies cover the wartime cultural activities of CEMA, the forerunner of the Arts Council, the Folk Revival, the impact of Richard Hoggart's *The Uses of Literacy*, broadcasting and the radio work of Charles Parker, Ewan MacColl and Peggy Seeger, the roots of modern arts festivals in Arnold Wesker's Centre 42 project, as well as the impact of progressive education on children's writing and the politics of the English language. *Only in the Common People: The Aesthetics of Class in Post War Britain* examines the assumptions, idealism and prejudices behind these projects and the terms of class as the preoccupation of a generation. This approach offers a historicisation of the broader ideas and debates that informed the development of the New Left and British social history and cultural theory, offering an understanding of the rise of respect for the common man.

The Cumulative Book Index, 1995. A world list of books in the English language. [A Measured Life](#), Taylor & Francis Group, 2020-12-18. Richard Hoggart's book *The Uses of Literacy* established his reputation as a uniquely sensitive and observant chronicler of English working class life. This large volume vividly depicts his origins in that setting. It is an autobiographical account combining Hoggart's three masterful works: *A Local Habitation*, *A Sort of Clowning* and *An Imagined Life*, in which he details his life from 1918 to the present. The first part of the trilogy, 1918-1940, describes Hoggart at an early age, recreating his circle of family and friends. It ends with him earning his degree from Leeds University and about to leave Yorkshire to go into the army. The second section, 1940-1959, opens in wartime England and moves into the beginnings of Hoggart's career in writing. The final installment, 1959-1991, traces and assesses a changing Britain and Europe and finds Hoggart reconsidering his childhood. The book provides vivid insight into the life of one of Britain's outstanding writers and chronicles changes in working class and English culture after World War I to the present. Following the original publication, Philip Oakes of *The Times Literary Supplement* wrote: "He writes with a passion that is usually well banked but which flows now and then with a visionary intensity. It is a remarkable way of looking at England." Beryl Bainbridge, writing for *The New Statesman*, said: "The setting of his own life in the context of social history makes Hoggart the ideal autobiographer. *A Measure of Life* will be an enjoyable and insightful read for students of literature, culture and English history, as well as admirers of Richard Hoggart. Few will walk away from this volume without being the wiser with respect to Western liberal thought in our times." [The Virginia Quarterly Review](#), 1994.
