A Moment Of Vision:

Vision to Reality Curtis L. Jenkins,2022-03-01 Entrepreneurs who are facing challenges with growing their businesses often face the same issues that impede their growth Many entrepreneurs believe that to grow their businesses they must work harder and harder They overlook the importance of the team the financials and a solid plan that must be executed and adjusted on a daily weekly and monthly basis They don't understand the concept of working on the business because they are too often working harder and harder in the business creating another job for themselves instead of rising to leadership and orchestrating a well run business *Vision to Reality* provides a simple set of steps to help entrepreneurs realize their vision for their business and clear the fog for everyone involved to get on board with executing the vision The goal of *Vision to Reality* is to help entrepreneurs clear the fog for themselves and their business giving them confidence that they can tackle problems head on despite the problems appearing insurmountable It is unique and appealing because it introduces a new opportunity using simple but effective foundational principles and tools often overlooked by entrepreneurs in their quest for business success

Solan,Suzi Romanik,1980-01-01 **The Athenaeum** ,1919 **BMVC91** Peter Mowforth,2012-12-06 Lewis Carroll once wrote a story about a king who wanted a very accurate map of his kingdom The king had a pathologically fastidious eye for detail and consequently decided that the map was to be produced at a scale of 1:1 The scribes dutifully set to and in time the map was made The map carried details of every tree every rock and every blade of grass throughout the entire land The problem occurred when they tried to use it First of all the map was extraordinarily difficult to open out and line up with the countryside Its sheer bulk meant that it took whole armies to carry it and a great host of bureaucrats and technicians to maintain the information Such was the detail of the map that as soon as the wind blew strongly whole sections needed to be redrawn What was worse was that all the farmers protested because the map completely cut out the light from the sun and all the crops died Eventually the howls of protest became so strong that the king was forced to take action He did away with the old paper copy and decided to use the kingdom itself as the map All lived happily ever after There are at least two morals to this tale First you are almost certainly doomed to failure if you do not get the representation of the problem right
