A Nurses Journey:

My Journey on Becoming a Nurse Verlia M. Brown, 2013-10-07 The purpose of this book is to chronicle my life's journey from birth to achieving my goal to be a registered nurse. People in general take different pathways to fulfill their professional dreams. My pathway took long and winding roads, hills and valleys. My intention is to inspire, motivate, and encourage people across the spectrum that they should pursue their dreams and never give up. In so doing, there might be many obstacles and struggles along the way, but with strength and determination and help from the community of people around you, your goal can be achieved.

My Fifty Year Nursing Journey Barbara Ann Burke, NA, LVN, ADN, BSN, MSN, 2013-07-26 In this sometime amusing, sometime challenging journey through fifty years of Nursing, this author presents her favorite memoirs. Beginning as a young sixteen-year-old Nurse Aide in the early 1960s, her long walk through Nursing launches in a small town hospital in the south. She moves you through youthful learning experiences, Nurse trainings, personal struggles with choices and lessons learned in life. Her progression through young adulthood addresses concerns of leaving her own children to care for patients and all the usual parenting versus career issues young Mothers deal with. Her sometimes joyful, sometimes stressful Nursing world is described from her early education throughout Nursing positions in many settings. Her return to college as a mature woman to achieve further degrees is certainly respectable. Watching a young and naive girl grow into a successful, confident Nurse with experience in several arenas will delight and entertain you. Anyone who is interested in the field of Nursing must travel this journey with this Nurse. She is now considering retirement and is in a quandary. Nursing is her life, and walking away is difficult. You will quickly realize just why on Earth anyone would ever want to be a Nurse.

COMPASSION, CARE AND COURAGE A Nurse's Journey RGN. KHALID SAEED ALI ALQAHTANI, LPN. SAAD AYED AWDHAH, RGN. ABDULRAHEM SALMAN HAMDAN ALMALKI, Nursing is not just a profession; it's a calling, and that calling is made of threads of compassion, care, and courage. *Compassion, Care and Courage A Nurse's Journey* is a document of individual experience and a testament from the rest of us to those who roam hospital and home hallways, professing our profession with confident hands, tender hearts, and unwavering nerves. From the prenatal beginning sparks of excitement in childhood to silent will ushering genius called for in the most critical moments, the nursing career is paved in profound experience, some bright and shining, others painful, but all fundamentally human. We encounter others at some of the most vulnerable points in their lives as nurses. We hear their fears, their hopes, and sometimes their last words. This privilege is sacred. Within these pages are tales woven from sweat and sacrifice, chapters buoyed by clinical expertise and moments developed out of compassion and perseverance. In this episode, we look at the history of the profession from the wards lit by the lantern of Florence Nightingale to the telehealth platforms of the 21st century. We salute nursing educators, researchers, frontline responders, and the many who are characteristically practicing change agents in boardrooms and policy circles. The many chapters in here contribute to different aspects of nursing life, be it the ethical dilemmas, burnout,

leading through a crisis or in finding joy through patients and reflection What I d really like to accomplish is not just documenting the journey of one nurse but a message that all nurses out there for what we are and why it goes beyond you or me I invite the different readers nurses students patients and those who just have to be curious to walk this pathway with me I hope you walk away with a greater respect for the quiet strength of nurses the emotional labor that they carry and the bravery of caring deeply in a world that often hurries Let this book be a mirror and a map a mirror for reflection on where we have been and a map for where the heart of nursing needs to go
