A Of Poetic Expressions:

Say it When You Mean it Raman K. Attri, 2018-12-15 This book is a collection of very simple expressions written and presented in the form of the poetic verses This collection of 27 poems included in this book is basically a spin off of greeting cards written by the author for some of the special people in his life These poems were originally drafted between the year 1990 to 2004 which represented phases in the author's life which every normal boy would go through in his twenties towards adulthood The work presented in this book by no means is claimed to be of poetical or literary standard It is just an attempt to tell the world that a simple expression or thought if you mean to say it with all your heart can and will become a piece of poetic expression The poems in the book are presented in five sections The Sight section include the poetic work to express what it may feel like when one sees the most special person for the first time That's the beginning though not all first sights transient into love The next section The Love includes the poems expressing the transformation one may feel during the love The Promise section presents the expressions that signify the promises we tend to make when we are in love The Memories section is meant for those poetic expressions which express how one may feel while away from his/her beloved ones The Adieu section is an inevitability that occurs in any relationship and is expressed through some poems in this section The Cycle represents those poetic expressions that life does not stop at one place or one person The cycle starts again but it does leave some lessons The Lessons section includes some general poetic verses written at a spur of the moment *Landscapes, Edges, and Identity-Making* Vicki Ross, Elaine Chan, 2019-10-21 In this volume experiences as narrative inquiry are explored in order to make sense of research identities and the response community we have created through this process Researchers bring together thinking and experiences in the current educational landscape to better understand the ways researchers have shaped and been shaped by their work **Human-Computer Interaction: Towards Mobile and Intelligent**

Ruffin, 1922 Poetic Expressions Duhaney Alexander Smith, 2020-11-04 This is Duhaney Smith's second book of poetry and includes some of his works from a decade ago The book reflects the author's growth and confidence in expressing himself in his own unique way He heavily favors the use of quatrains to express his feelings on

various subjects and once again has sought alignment with his readers by sectioning this book the second of three to be published in this form into the themes of Love Inspiration Humour and Reflection The reader will discover that the author writes in standard English but also expresses himself in Jamaican patois and at times speaks from the perspective of his subject He dabbles into more than one form of poetry including a thought provoking ghazal dealing with the conventional theme of love s yearning titled Prejudice and an epic poem the very romantic and adventurous Malaika s Revenge Also notwithstanding his preference of quatrains the author includes in this collection other poems of note using couplets triplets and free verse There is much use of assonance as well as a definite musical incantatory form to many of these poems which lean them towards the performance rather than the literary form of poetry Poetry Lovers and ordinary readers will definitely enjoy this book and will make repeat visits to discover new meanings memorize phrases and stanzas and just to enjoy the work of a poet as he discovers himself
