A Personal Guide For Cabin And Cockpit Self Defense:

A Personal Guide for Cabin and Cockpit Self Defense David D. Cortez,2005 My name is Jay Perales I have been a successful E Mini S P 500 trader for a little over 7 years now I think back to when I was a beginner trader and how it would have really benefited me to have a mentor It would have really helped to have someone by my side to ask questions watch and learn from their experience I had so many questions when I first started trading but there was no one to answer them Not knowing any better I went out and spent thousands of dollars on classes courses books and manuals I even paid 11 000 for a day trading course When I completed the course I left even more confused with more questions than before Simply put I was left to trade on my own Not only did I spend thousands of dollars but also countless hours watching and studying the market Eventually after years of tracking the market I created the 2 Hours a Day system Developed through trial and error this system has evolved into what many believe is the most successful method of trading the E Mini S P 500 today One thing I told myself is that I would not wish my experience upon anyone I had no clue what I was doing and after spending thousands of dollars I was determined to learn But honestly I didn't know where to start The courses I took and books that I bought were only on trading but not on how to get data charts or more importantly how to set them up Imagine my frustration I knew that I needed charts to watch the market but where would I find them How frustrating to subscribe for data log on and get a black screen As most traders know when you get a data subscription you have to set up your own charts You are basically on your own as to figuring out how to set up the correct candles colors and indicators I learned that when you buy a course you are buying that person's methodology to learn how they trade their methodology or system You do not necessarily get all the tools and contacts that you will need to trade on your own It took 3 years of trying to figure out how to make money trading It also took a lot of patience discipline and most of all my will to succeed That is what drove me to create the system that I trade and teach today Becoming a successful trader has been a journey for me I am by no means a sales person trying to just sell my system What I am sharing with you is my own personal experience Becoming a trader the way that I did was not easy There were many times that I was close to giving up I always thought If only there was someone else that understood someone I could talk to that would help me out not just with trading but also to keep me confident that I was headed in the right direction I decided that if I reached my goal I would help othe

Forest and Stream, 1884 *Attack Proof* John Perkins, Al Ridenhour, Matt Kovsky, 2000 Martial arts can teach people many important lessons about discipline conditioning and dedication But as an effective means of self defense and survival in brutal real world attacks almost all martial arts come up short This is because most self defense applications of martial arts rely on patterned choreographed techniques that have no relation to the chaos and randomness that rules during life and

death fights Attack Proof offers a dramatically different kind of self defense system that really works It s based on the insights real world experiences and forensic research of John Perkins a New York cop who teaches hand to hand combat to military and police instructors A survivor of over 100 documented armed and unarmed violent encounters Perkins also engaged in unlicensed pit fights and was a bodyguard with an international clientele Revolutionary in its approach the book helps you to become a master of random motion or guided chaos where you create a defense during attacks using principles of movement and physics These principles are taught through many drills and exercises which focus on improving balance looseness sensitivity and power This book provides a wide selection of basic to advanced tactics and principles with nearly 200 accompanying photographs that show correct positioning and maneuvers You learn what to do and what not to do in potentially life threatening situations including muggings carjackings abductions knife fights and gunfights Plus the authors back up their teaching with illuminating real world anecdotes Attack Proof is essential for anyone interested in personal safety If you are already trained in a particular martial art you will dramatically enhance your combat skills If you practice tai chi you may discover secrets that have long eluded you If you are a novice you will learn the basics of survival while improving your coordination timing and balance Protect yourself by being prepared for the unexpected and become a martial realist Visit AttackProof.com for more information
